BAKED IN A WOOD FIRED OVEN

We use a Marana Forni rotary wood fire oven made in Italy. This revolutionary oven always cooks at the ideal temperature, thanks to its rotating plate. Making for the perfect pizza every time.

WHAT MAKES OUR PIZZA GREAT

We are dedicated to using fresh seasonal ingredients & making as much of our products from scratch as possible. We take pride in all the food we create, that's why we have fresh dough, house made pizza sauce & quality toppings.

WHAT IS NEAPOLITAN PIZZA

Authentic Neapolitan pizza is 12", & very thin in the center, but has a nice puffy crust.

Neapolitan pizza has a varying degree of leoparding. This char on the sides & bottom is a subtle layer of flavor & texture. There is a careful balance of crust, sauce, & cheese. The liquid from the sauce & cheese creates a hot molten area at the center.

ASK FOR YOUR PIZZA "PARBAKED & UNCUT" TO FINISH IT AT HOME

- 1 Preheat oven to 375 degrees.
- 2 Place pizza on stone or pan in oven.
- 3 Cook for 4-6 Minutes.

We recommend that customers ordering pizza to go request that the pizza be "parbaked & uncut." We will leave any finishing toppings on the side so that you may dress your pizza after re-heating it at home.

KUNA Consuming raw or undercooked meats, poultry, seafood, shellfish, unpasteurized milk or eggs may increase your risk of foodborne illness.

Salad

Side: Lettuce, tomato, red onion, and STL style cheese. Side of house-made vinaigrette. 6
