

## **Coronavirus (COVID -19) Message to Customers**

Pleasant Home Water District is committed to the health and well-being of the community. As we navigate through these challenging times, the District is taking action to continue delivering reliable and uninterrupted water, while ensuring the health and safety of customers and employees.

More than 2,000 people are depending on the District to provide water to their homes and keep their businesses running. That's why we are committed to provide all essential functions for reliable service, including having staff available to respond to emergencies and required system maintenance.

Recognizing this is a difficult time for many families, the District encourages customers to call the office and make a temporary payment arrangement if you anticipate difficulty paying your bill. Bills and notices will continue to be issued but we will not **disconnect water service due to the impacts caused by the coronavirus.**
