

BLUE SPOT BEAM

Part Number LV412BC

FORK LIFT SAFETY LIGHT

These Blue LED Lights are designed to project a blue beam of light on the ground to warn pedestrians of the movements of the fork lift.

They are ideal for warehouses and are a simple way to increase employee safety by ensuring fork lifts always remain visible.

DESCRIPTION

- Working temperature: -25°C to 75°C
- Current Draw Max @ 12VDC: 1A
- 3250 lumen/m²@ 12V
- Diecast Aluminium Housing
- Reverse Polarity and Voltage Spike Protected
- 2-Year Warranty

LV412BC

- 12-80 VDC
- 12W FLIP CHIP LED X 1
- B (BLUE) LED
- GLASS LENS
