

HoistCam™ Armored Dome HC180i (Industrial Series)

The HoistCam™ HC180i from Netarus is an armored dome rapidly deployable wireless video night/day camera platform. The HC180i is a cost effective design, which is wired into external power source such as an external battery pack. HoistCam places the eyes of the crane operator anywhere on the job. Safety is increased, and efficiency improved by making instant visual information available to those who need it.
