

WILD NOVA

HARD CIDER FERMENTED WITH NOVA RASPBERRIES

Deep-red in color and bursting with ripe flavor, Wild Nova is made from hand-pressed late harvest Nova raspberries, grown here on Blake Farms. After cold-soaking for seven days in our open-top fermenter, the juice temperature rises naturally before our native yeast is added. The two month long ferment, in contact with the berries, gives the cider the full expression of that fresh picked taste.

Blake's Hard Cider Co. is one of Michigan's first craft cideries, offering an adventurous exploration of all things cider. By growing, pressing and fermenting our own apples, we're proud to introduce a truly uncompromised hard cider.

All natural and always made fresh, Blake's is the first hard cider you actually want to be seen with.
