

# Aloha Series™ GOLD CLIFF IPA

Ale brewed with Pineapple  
and natural flavor added

## Diver's Paradise

At the southern tip of Lanai, not far from the island's first pineapple fields, lies a cobalt blue inlet rimmed with golden cliffs that welcomes divers of every stripe. This is Kaunolu Cove. Catamarans anchor here beside a blade of black rock known as Moku Noio, where snorkelers explore a dazzling rainbow of tropical fish below and cliff divers soar from the sun-drenched cliffs above. It has been said that ancient Hawaiians once proved their courage here by making this electrifying 70-foot jump from the famed keyhole notch at the top. Today, you may still see a fearless adventurer leaping from these rocks into the cool embrace of the Pacific below.

## Welcome to Adventure

The pineapple is the symbol of hospitality throughout Hawaii. And the small island of Lanai, once the world's largest grower of this iconic fruit, is known for its welcoming spirit and rugged landscape. So it's fitting that our Gold Cliff IPA features real pineapple, along with bright, tropical fruit aromas of Mosaic and Citra hops. Add a hint of smooth caramel malt, and the result is pure island inspiration: as bold and adventurous as cliff diving, as friendly and easygoing as Lanai itself. Dive in!
