Who We Are:

Innovative consulting firm led by Curtis Cude, with over 30 years of experience in water quality and public health. Specializing in providing science-based solutions to water insecurity needs.

Our Mission:

Driving change through strategic partnerships and innovative solutions to ensure water security and promote health equity across communities.

Core Competencies:

- Water Insecurity and Health Equity Consulting
- Environmental and Public Health Information Services
- Project Management and Program Development
- Water Risk Assessment and Protection Planning
- Agency Navigation Services

Past Performance:

- Managed extensive environmental public health programs.
- Led development of multiple environmental public health IT projects.
- Since 2017, helped build the practice of addressing water insecurity in Oregon.

Differentiators:

- Deep sector expertise and a recognized leader in environmental public health.
- Strong network with key local, state and federal stakeholders.
