

Water Insecurity Solutions LLC

Capability Statement

About Us:

Water Insecurity Solutions LLC partners with public agencies, engineering firms and community organizations to address water insecurity. Founded and led by Curtis Cude, we bring over 30 years of experience in water quality, public health and collaborative problem-solving.

Mission:

To ensure safe, equitable and reliable access to water by providing practical solutions that bridge science, policy and community needs.

Core Capabilities:

- Water insecurity and health equity consulting
- Environmental and public health information services
- Program and project leadership
- Water risk assessment and planning
- Agency navigation and partnership development

Experience:

- Directed statewide environmental public health initiatives
- Envisioned and managed environmental and health data systems that improved decision-making
- Pioneered the practice of addressing water insecurity in Oregon since 2017

Differentiators:

- Deep public health and water expertise
- Strong partnerships with local, state and federal organizations
- Published peer-reviewed research on water quality and insecurity
