Election Worker Harassment

A new legislative act makes it a felony to influence or attempt to influence through force, threat, or harassment an election worker performing election administration duties. This applies to town clerks, registrars of voters, deputy registrars, and election, primary, and recanvass officials.

The act also makes it a misdemeanor to publicly disclose an election worker's personal identifying information with the intent to harass, terrorize, or alarm the worker or improperly influence them in performing their election administration duties.

Additionally, election workers have a civil cause of action against violators of either provision under the act (PA 24-148, § 7, effective July 1, 2024).
