The Program growth index shows steady progress from 2023 to 2025, driven by expanding projects, stronger partnerships and collaborations, and growing community participation across counties.

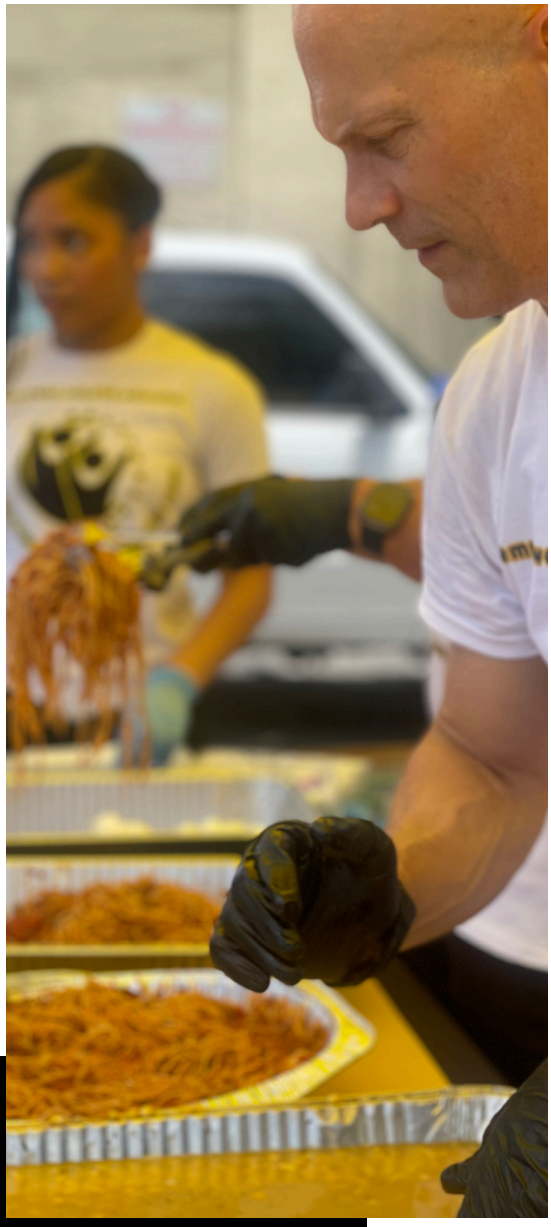

EXPANDING IMPACT

FUTURE OUTLOOK

Expanding our community outreach programs, building upon our impact of serving over 200 unhoused individuals and community members experiencing financial hardship through our Harvest Together feedings initiative. We aim to increase program participation by 25%, providing greater access to food assistance, financial support, senior care, youth development, and employment opportunities. Building on our reported 85% positive outcome among surveyed Senior Care Program recipients and 90% improvement in social skills among Youth Circle participants, we strive to maintain or exceed these results through enhanced services and personalized support. Our goal is to expand assistance to vulnerable individuals and families by 30% through strategic partnerships, increased funding, and volunteer engagement. Through sustainable growth and measurable outcomes, ARCFCORP remains committed to empowering communities, rebuilding lives, and creating lasting opportunities for individuals and families in need.
