

Meet Aero.

The evolution of intelligent airflow.

QuickCool™ Ice Chamber

Enhance your environment
in a snap with our easy
access ice bin.

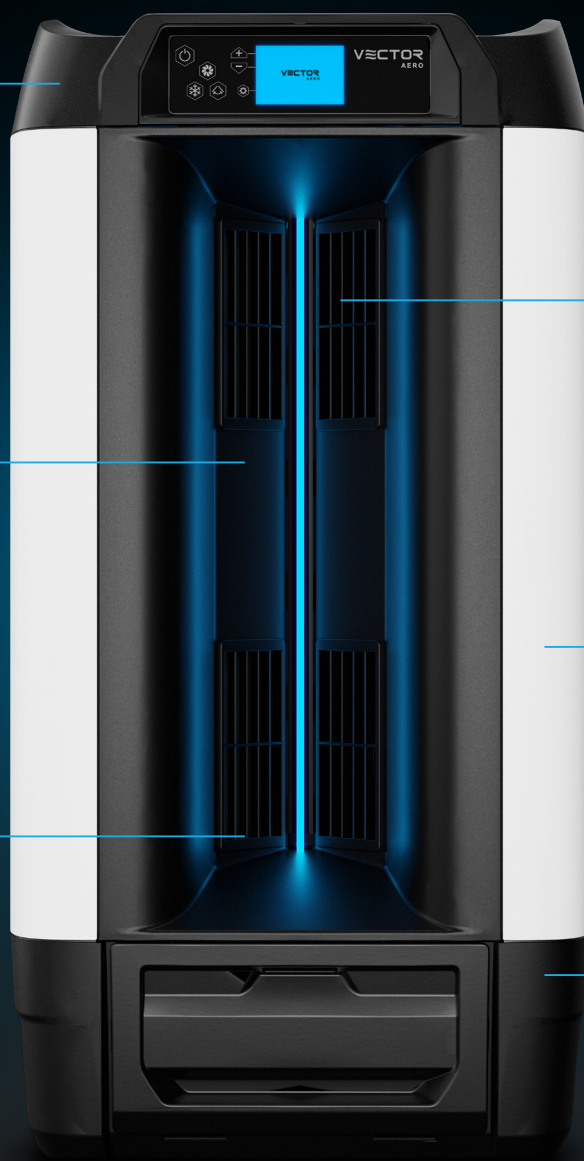

Variable Oscillation up to 180°

Fully customizable panoramic
airflow range. (narrow, wide
and ultra wide)

Smart Mobile Outdoor Cooling

Using only water, Aero's
evaporative system provides
up to 25° of cooling.

Patented CrossFlow™ Technology

Proprietary Next-Gen
airflow technology.

Made in America

Proudly designed and
manufactured in the
United States.

QuickCool™ Reservoir

Multiple water connection
options with easy
access for cleaning and
maintenance. Hygenic
circulation technology using
as little as 16oz of water.

AERO

VECTOR
AERO

Smart mobile outdoor cooling.

Dimensions	40.2\"H x 22.5\"W x 18.7\"D
Velocity	25+ mph
Air Delivery	1800 CFM
Power Usage	400W
Input Voltage*	110-220V (50-60Hz)
Weight (dry)	75 lbs
Fan Speed (airflow)	Variable 8 speeds
Coverage	1000-1200 sq ft
Water Reservoir	8G / 30L
Noise Level	Whisper Quiet < 58 dB
Oscillation	Variable up to 180°

*Voltages higher than 120VAC require input cord change and do not comply with standards as listed.
