Sort Code: 50-21-01

Please ensure that you provide your name and/or invoice number as a reference.

Insured patients: Pre-authorisation is required prior to your appointment. Provided that we have your membership number and a valid authorisation code, we will happily invoice your insurer directly. Patients attending without the appropriate authorisation from their insurance company will be required to pay for the appointment and reclaim from their insurers.

Insurance

We are happy to deal with insurance companies direct, provided you can provide full details of policy numbers, letters of guarantee, claim authorisation, claim numbers, and claim forms in advance of any treatment or appointments.

UK insurers

Please note that UK Insurers don't cover private obstetric care. Even in the rare circumstances that your insurance qualifies you for an emergency caesarean section, only a proportion of Miss Yulia's total fee is reimbursed by insurers. **Any shortfall is your responsibility. See below.**

Insurance shortfalls

It is important to understand that shortfalls for private obstetric fees are common; they can sometimes be substantial. Liability for these shortfalls always lies personally with you, the insured.

Confirming your insurance cover

If you are unsure about your insurance covers, please speak directly to your insurance company. We will need to see full details of policy numbers, payment authorisation, letters of guarantee, claim numbers and claim forms before we provide formal confirmation of your obstetric package.
