ADDITIONAL COSTS

Dr Yulia is a private Consultant who operates from the Chelsea and Westminster and Portland Hospitals. Each hospital has their own fee structures for anything outside of Dr Yulia's care such as hospital services, pathology tests, overnight stays, anaesthetists, and paediatricians are charged separately by them. Please contact the private wings and ask for their pricing structures to be emailed to you to get a better idea of costs.

Hospitals may change their pricings, so we recommend speaking to them directly to avoid any misquotes of costs.

Insured patients: Pre-authorisation is required prior to your appointment. Provided that we have your membership number and a valid authorisation code, we will happily invoice your insurer directly. Patients attending without the appropriate authorisation from their insurance company will be required to pay for the appointment and reclaim from their insurers.

Insurance

We are happy to deal with insurance companies direct, provided you can provide full details of policy numbers, letters of guarantee, claim authorisation, claim numbers, and claim forms in advance of any treatment or appointments.

Please note that UK Insurers don't cover private obstetric care. Even in the rare circumstances that your insurance qualifies you for an emergency caesarean section, only a proportion of Miss Yulia's total fee is reimbursed by insurers. Any shortfall is your responsibility.

Insurance shortfalls

It is important to understand that shortfalls for private obstetric fees are common; they can sometimes be substantial. Liability for these shortfalls always lies personally with you, the insured.

Confirming your insurance cover

If you are unsure about your insurance covers, please speak directly to your insurance company. We will need to see full details of policy numbers, payment authorisation, letters of guarantee, claim numbers and claim forms before we provide formal confirmation of your obstetric package.
