

AN EYE-CATCHING UPDATE FOR YOUR SPACE

Benefits of Rubber Stone

Improved Curb Appeal

Rubber Stone adds value to your property by refreshing damaged concrete, asphalt, wood and more.

Residential & Commercial Installation

Quick and quiet installation improves the function and design without disrupting your home or business activities.

Non Slip Finish

Improves safety in slippery areas with naturally porous and skid-resistant qualities.

Indoor & Outdoor Applications

Beauty and function come together in a rubber overlay designed to minimize the impact of steady activity. Whether you want to create a beautiful space or you're simply looking to add a safer surface in areas prone to slippery conditions.

Resilient & Durable

Manufactured using the strongest, highest-quality materials on the market, making it a smart choice for a range of extreme weather conditions whether it's a cold Canadian winter or a hot Southwest summer.

Stylish & Versatile

Rubber Stone covers cracked, pitted, shaled, and deteriorated surfaces more effectively than other resurfacing products. With a variety of colours to choose from, you get the decorative elements you want without compromising the durability you need.

PROUD PARTNER OF

100+ Dealers Around The World

With an extensive network of incredible people, we're close by to help you find the right product to make your space beautiful and functional.

Customer satisfaction is about more than the final product, and our team is dedicated to ensuring you are happy at every step of your project.

30 Years of Experience

Since 1988, founder Don Emde wanted to help home and business owners find a solution to cover their ugly concrete. With the invention of Rubber Stone, millions of tires are recycled and truckloads of concrete are kept out of the landfills.

Surfacing Solution

Give your concrete, pavers and asphalt a fresh new look. Rubber Stone uses Vuba Polyurethane Resin Technology mixed with high quality synthetic and recycled rubber granules to create a surfacing solution that is perfect for your residential and commercial projects.

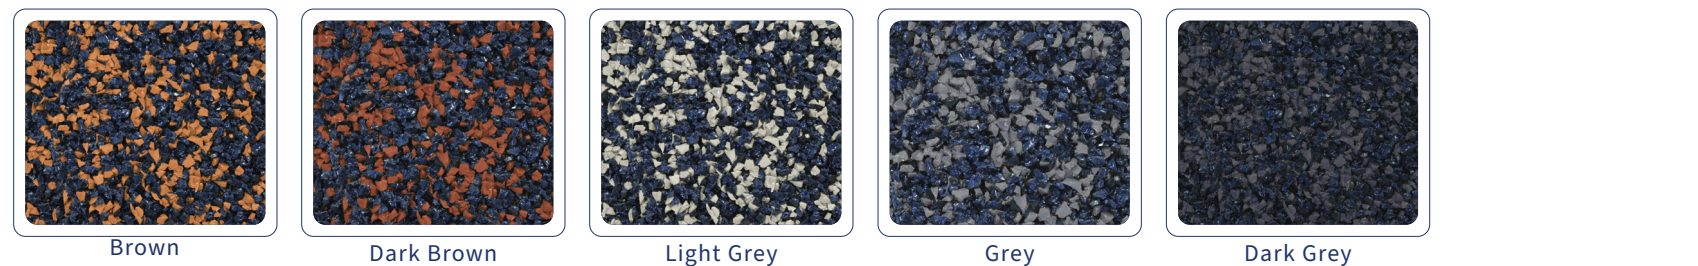

Base Colors

Choose from any of our base Rubber Stone colors for a bold splash of color.

Two Color Blends

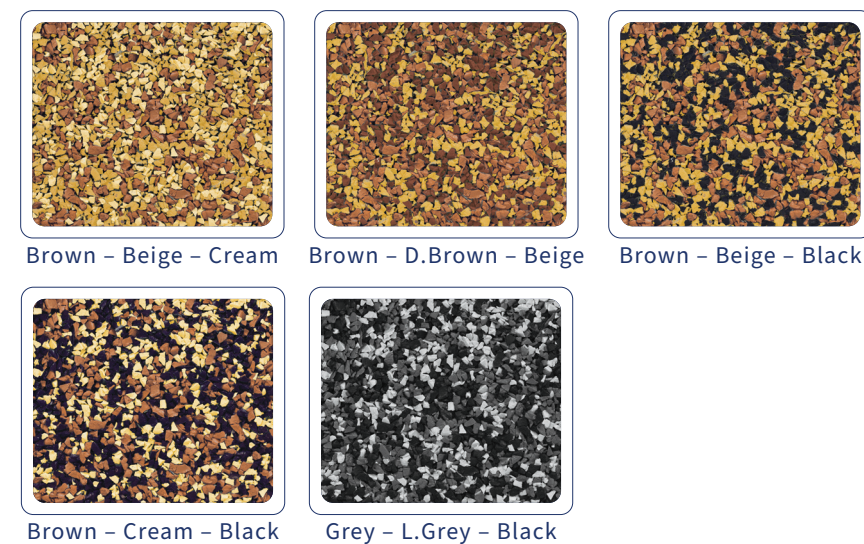

To get the right look for your space, consider a blend of two Rubber Stone colors. Our most popular two-color blends mix a base color with black.

Three Color Blends

Mixing three Rubber Stone colors together gives you even more custom color options. The samples are our five most popular three-color blends.
