STUDENT ACHIEVEMENT DATA

RETENTION RATES

Retention rates are calculated based on the number of full-time students who enrolled in their first university degree program in the given year and who also re-enrolled the following year.

GRADUATION RATES

Graduation percentage rates are calculated based on the number of students who enrolled in a program in a given year (the “cohort”); and who graduated within 150% of their expected time to graduation (i.e., Bachelor’s degree students are expected to complete their degree programs in four years, therefore 150% of the expected time = six years. Master’s degree students are expected to complete their degree programs in two years, therefore 150% of the expected time = three years).

Placement rates are calculated based on the number of students who graduated from the program in a given academic year and who obtained employment or continued their studies within a defined period following graduation. Placement outcomes include employment in relevant professional fields, enrollment in graduate or advanced studies, or other forms of gainful employment. The total placement rate reflects the percentage of graduates who were successfully placed in one of these categories.
