

# **2022 ANNUAL REPORT**

## **REBUILDING THEIR FUTURE FOUNDATION, INC.**

The Rebuilding Their Future Foundation, Inc. (RTFF) was established in 2018 and is a recognized 501(c)(3) not-for-profit corporation based in the Commonwealth of Pennsylvania. RTFF was founded on the belief that an educational scholarship could change the future of an individual recovering from the devastating loss or disabling injury of a loved one that occurred while the loved one was attempting to save the lives of others. The mission of RTFF is to provide scholarships to surviving family members of mine rescue team members, fire fighters, or other emergency first responders who perished or became severely disabled and are unable to execute their job duties. We believe that providing opportunities to reach an educational goal could change the future of a family or family members recovering from the devastating loss or disabling injury of a loved one who was working to save the lives of others. The focus of the foundation is to award scholarships for all levels of secondary and post-secondary education to individuals with the desire and intention to earn a high school diploma, complete an approved program of vocational education or training, or acquire a degree from an approved four-year college or university. This report provides a summary of major activities during 2022 to fulfill our mission.
