Tuesday, October 24th — Club Meeting at 7pm at the OP on University Ave, Cedar Falls

BLACK HAWK R/C PILOTS – SEPTEMBER 2023

From the President — The next club meeting will be on Tuesday, September 26th at 7PM at the Club Flying Field in New Hartford.

Come out and enjoy the cookout at 6PM.

Upcoming Events — The weather conspired against **National Model Aviation Day** and the **Warbird Fly-In**. Both were initially delayed because of extremely hot weather in late August. Then more hot weather in September postponed the events until mid-September. We are going ahead this weekend with **National Model Aviation Day & Swap Meet** on Saturday and the **Warbird Fly-In** on Sunday. At this point, all rules are off. Just come out and fly whatever you've got, and bring whatever you want to sell at the Swap Meet.

Fall Field Day — On Saturday, October 21st from 9AM until noon, we'll be servicing the mower and other equipment, storing the tables and benches, and putting the Porta-Potta away for the season. This marks the official

end of the summer flying season and the beginning of the winter flying season. In the past, there have been a few nice flying days in November and even early December.

FAA Remote ID Rule — The FAA has delayed enforcement of the Remote ID Rule from September 16, 2023 until March 16, 2024. Pilots who have Remote ID equipped aircraft and drones are required to use Remote ID immediately. However, many pilots have encountered difficulty in obtaining either a Remote ID enabled aircraft or a Remote ID add-on module. The FAA expects aircraft (or drones) and add-on modules to be readily available in the next six months. Flite Test is offering a Remote ID add-on module for \$99.99. Wiring adapters and a protective case add another \$14.98. Horizon Hobby is offering the SkyID Remote ID Module for a pre-order price of \$69.99. Both offer included

Club Meeting

The summer club meetings are at 7PM at the **Club Flying Field in New Hartford.**
Come for a cookout at 6PM.

telemetry for GPS position, ground speed and altitude.

Last month I reported that our flying field had received FAA approval as a FRIA flying site. As of the end of August, the FAA has approved 412 applications for FRIAs, with 1,206 yet to be reviewed with more expected as the deadline approaches.

I hope to see you this weekend and at the meeting.

Neal Leeper

President, Black Hawk R/C Pilots

A few of Roger Schellhorn's airplanes and shop equipment are still available. Contact Keith Johnston at 319-404-8380 by phone or text or email at kajohnston65@gmail.com.
