Only \$299.99/month \*Recommended for 3-6 months\*

*The guidance and support you need to get your business started successfully!*

### What is “Start-Up Guidance”?

Start-up guidance is complete support for you to start your business and legally register it. We will provide you with one-to-one assistance providing you with the best incorporation recommendations based on your goals.

We provide you with applicable licenses, certifications, forms, templates, and milestones aimed to help you have a successful startup that has goals and projections to grow.

You are walked through the full incorporation process ensuring you are starting your business for success and to apply to federal and state funding as followed below:

1. Permits and requirements for your state for your product or service business
2. Create a unique and organized business plan
3. Pick your business or service location
4. Registering: Contact your municipality for information on local regulations and tax registration
5. Incorporate your business in the state you choose
6. Hire you some new staff
7. Move to our “Grant Guidance Subscription”
8. Start applying to grants up to \$1 million
