

Cybersecurity Intern

www.leswee.us

Job Summary

Leswee LLC is a management consulting company that specializes in a variety of fields, including cybersecurity, healthcare, finance, and environmental providing risk management, compliance, and grant writing consulting services to businesses, nonprofits organizations, and government. As a Cybersecurity Intern with Leswee LLC, you will work with our team of cybersecurity experts to help identify and mitigate security risks and vulnerabilities in our clients' networks and systems. As an intern you will be responsible for assisting in the development and implementation of cybersecurity policies, procedures, and practices to protect the organization's systems, networks, and data.

Internship Description

As an intern you will also work with other departments within Leswee LLC, such as our Risk Management and Regulatory Compliance teams, to gain a comprehensive understanding of how cybersecurity fits into the larger picture of risk management and compliance. The benefits of a cybersecurity internship with Leswee LLC include gaining practical experience in the field of cybersecurity, learning from experienced professionals, and the opportunity to contribute to real-world projects. Additionally, the intern will have the opportunity to work on cutting-edge technology projects and develop skills that will be valuable in future career pursuits.

Intern Duties and Responsibilities

- Conduct vulnerability assessments and penetration testing on client systems and networks
- Assist with creating and implementing security policies and procedures for clients
- Assist with security incident response and investigation
- Conduct research on emerging cybersecurity threats and solutions
- Help with the maintenance and configuration of security tools and systems, such as firewalls, intrusion detection systems, and antivirus software
- Assist with the review and analysis of security logs and alerts
- Help with creating and delivering cybersecurity training to clients and Leswee LLC staff
- Participate in security audits and assessments of client environments
- Assist with drafting security reports and recommendations for clients.

Cybersecurity Intern
