Montclair, NJ 07042

Job Summary

Leswee LLC is a management consulting company that specializes in a variety of fields, including cybersecurity, healthcare, finance, and environmental providing risk management, compliance, and grant writing consulting services to businesses, nonprofit organizations, and government. As such, the Information Security Analyst Intern of Leswee LLC would be responsible for assisting the security operations center (SOC) team in the development and implementation of information security posture and compliance.

Internship Description

As an Information Security Analyst intern at Leswee LLC, you will assist in the development and implementation of information security policies, procedures, and controls to ensure the confidentiality, integrity, and availability of our client's data. You will conduct risk assessments, vulnerability assessments, and penetration testing to identify potential security threats and vulnerabilities and work with our team to develop and implement remediation plans. You will also assist in the development and delivery of information security training and awareness programs for our clients.

To be successful in this role, you should know information security principles and best practices, as well as familiarity with industry standards such as NIST, ISO, and PCI. You should also have strong analytical and problem-solving skills, as well as excellent communication skills to work with our team and clients.

Intern Duties and Responsibilities

- Assist in the development and implementation of information security policies, procedures, and controls.
- Conduct risk assessments, vulnerability assessments, and penetration testing.
- Develop and implement remediation plans for identified security threats and vulnerabilities.
- Assist in the development and delivery of information security training and awareness programs.
- Monitor and report on security incidents and events.
- Stay current with industry trends and emerging threats in information security.
- But not limited to

Information Security Analyst Intern
