

## **Why use Bionic Healthy Home for your HVAC needs?**

### **We are indoor air quality experts!**

Bionic Healthy Home was founded by Frank Haverkate and Marnie Burgess that have combined over 30 years of experience in indoor environmental testing and consulting. Frank and Marnie own and operate Verify Air Quality Test which specializes in residential and commercial air quality audits and air quality testing. Verify is at the forefront for solving even the most complex indoor air quality issues and is the leading indoor air quality consulting company in the GTA.

We know indoor air quality and only recommend air quality and HVAC solutions that we have researched, used, tested in our own homes first...before we recommend it to our clients.

Wherever possible we source out Canadian made or Canadian content systems and solutions.

### **We stand behind our products!**

Since we own an indoor air quality testing company, we have the tools and experience to test your indoor air quality prior to recommending solutions to make your home a healthy environment to live and work.

We guarantee all of our air quality solutions by showing you pre and post installation air quality data, so you know you've spent your money on the right equipment.

Since we rely on air quality data, we are able to ensure that you will be living in a healthier indoor environment...or we will make it right!

### **Our products and installations may be Tax Deductible as a Medical Expense!**

Since we are not just an ordinary HVAC company and specialize in indoor air quality and healthy homes, your purchase may be tax deductible as a medical expense.

Revenue Canada allows the following HVAC equipment to be tax deductible as a medical expense if it is for health reasons with a doctors prescription.

Lines 33099 and 33199 of your personal income tax return allows the following deductions:

- Furnaces
- Air Conditioning
- Air purification systems
- Water purification systems
- Environmental control systems

## **Product Support, Warranty and Service!**

Bionic Healthy Home offers a 5 year optional warranty on all parts and labour with our annual Service and Maintenance Package.

For one annual fee, we will clean and service all installed equipment as per manufactures requirements and also supply and replace all filter media.

***No more rushing to a big box store to buy filters or search online.***

Just relax and enjoy a healthier home...let us do the work.
