

Important Information
regarding COVID-19

As a locally owned and operated provider of moving services we continue to monitor the rapidly evolving situation around the coronavirus (COVID-19). Our first thought is for the safety and well-being of all impacted by these difficult circumstances. In these unprecedented times, it is important that we come together to support all those impacted.

We are an essential business and will remain open. You can count on us to continue to do our best serving our clients and our community's relocation needs.

We have implemented several new policies and procedures, which follow recommendations from the U.S. Centers for Disease Control and Prevention (CDC). We have discontinued the use of re-usable wardrobe boxes and crates for packing services. We are in constant communication with our employees to reinforce our sanitation safety procedures. In addition, we are sanitizing our trucks and moving equipment at an increased frequency. Each crew member takes their temperatures when they arrive for work and log the information. They wear CDC compliant face masks and gloves. We have implemented stringent hand washing and sanitizing procedures to take place multiple times a day. All crew members are required to stay home from work if they develop respiratory, fever or flu-like symptoms. The safety of our crew members and our clients is our highest priority.

Based on these proactive actions we have implemented we are confident that our moving services will be completed in a safe manner. Thank you for supporting our locally owned and operated family moving business serving Fresno and Clovis since 2004. You can contact us by text or phone at 559-392-2400 if you have questions or need assistance with moving. As always- we are happy to help. Please continue to take care of yourself and each other.
