Nassau County Association of Mathematics Supervisors (NCAMS)

*present*

## ***How to Make Math Count***

### ***A Conference for K-8 Mathematics Teachers***

Friday, January 5, 2024 8:00 am – 2:15 pm

Molloy University, 1000 Hempstead Avenue, Rockville Centre, NY 11570

## **Registration is Now Open**

Our Keynote Speaker, Suzy Koontz is the Founder and CEO of Learn Thru Movement, an actuary, educational consultant, math teacher, and creator of Math & Movement, Movement & Literacy and over 200 kinesthetic teaching tools. Suzy is the author of over 20 books, including research based and state-aligned curriculum books, and has worked in 46 states across the country. She is also the vice president and one of the founding board members of the National Math Foundation (NMF), whose mission it is to foster exercise, healthy eating, and learning through movement as a means to develop a community of math literate members.

Suzy Koontz will be speaking about, “**How Joyful Learning Through Movement Crushes Math Anxiety.**” Did you know that physical exercise – coupled with cross-body movements, joyful learning, and active play – helps to minimize math anxiety and maximize the speed of learning and information retention through the development of new neurons and their connections? Suzy Koontz will share how you can harness the power of movement-based learning and foster a positive math mindset, increase math confidence, and offer enjoyable math practice to your students.

#### **\$75 Registration fee includes:**

- Keynote Speaker, Suzy Koontz
- Over 45 workshop sessions designed for K-8 teachers
- Vendors with an abundance of materials and resources
- Networking opportunities with teachers and consultants
- Continental breakfast and premium bag lunch
