

EM200

Weight Indicator and controller

The EM200 industrial-grade weight indicator and controller, which provides a compact and flexible solutions to meet various requirements of industrial weighing, such as bench scales, floor scale, etc.

Key features

Large screen display

- Certification accuracy: 4000e
- digits 40mm tall, seven digits seven segment LCD with white backlight

Communication interface

- standard discrete RS232 and isolated RS485; Bluetooth

Discrete I/O interface

- optional discrete I/O port, 2 inputs and 4 outputs.

Flexible application

- basic weighing, check-weighing, counting, accumulation, livestock weighing, truck scales.

Dimensions

Unit: mm

Specifications

Product model	EM200
AC Power	100-240VAC / 49-60HZ
Li-Battery capacity ※	5000mAh
Operating temperature	-20 ~ +60
Display screen	TN segment code liquid crystal, 40mm weight word high weight display, with white backlight
Number of verification scale intervals (e)	4000
Number of scale intervals for indicator (d)	100000
Number of sensors	Up to 4 350 Ohm load cells
Load cell Excitation	5VDC
Minimum sensitivity	1 μ V/e
Accuracy class	III
KeyPad	11 key control
Communication protocol	Command output, Continuous output, Print
Calibration method	Weight calibration, Remote calibration
Capacity	1-500,000kg (default 60)
Increment size	0.001/0.002/0.005
	0.01/0.02/0.05 (default 0.01)
	0.1/0.2/0.5
	1/2/5
	10/20/50
Serial ports	2 way RS232 (Isolation)
Baud rate	1200, 2400, 4800, 9600 (default), 19200, 38400, 57600, 115200
DIO interface ※	2 input (optocoupler isolation) / 4 output (relay contact)
Enclosure Type	Aluminum alloy, Stainless steel
Install mode	Mount to wall, table or column with adjustable Angle mounting bracket
Weighing application	Can be used for basic weighing, checking weight, counting, accumulation, animal weighing and so on

Note: The list marked with ※ is optional, customers need to purchase separately.
