

## WHAT IS VIRGIN BLACK CUMIN SEED OIL?

A dark amber/black oil that is made by cold-pressing seeds of the *Nigella sativa* plant. Black cumin (also known as nigella seed or black seed) oil is grown in Eastern Europe, Western Asia, and many countries in the Middle East. It has been used as a natural remedy for thousands of years in the treatment of asthma, skin conditions, managing cholesterol, and more due to its high antioxidant content. The herbaceous smell of black seed oil comes from the high concentration of antioxidant phytonutrients and terpenes, namely Thymoquinone which has been shown to have amazing antioxidant properties and benefits in humans and dogs. This potent antioxidant helps eliminate free radicals to prevent cell damage while repairing DNA and promoting healthy cell rejuvenation.

## WHAT IS HEMP SEED OIL?

A green oil that is made by cold-pressing seeds of the *Cannabis sativa* (Hemp) plant. Hemp seed oil does not contain any THC (psychoactive ingredient in Cannabis), so it will not cause humans or animals to get high. Our hemp is organically grown in the prairies of Canada without the use of pesticides and is known for its high Omega-3 content which can help reduce inflammation, reduce cholesterol, and provide neuroprotective properties when regularly integrated into your diet. Hemp seed oil can also provide many benefits to the skin, fur, and hair when applied topically.

## LIVE A LIFE FULL OF PAWTALITY!

## PAWTALITY ANTIOXIDANT & OMEGA-3 OIL

Pawtality is a proprietary oil blend specifically formulated to boost the Antioxidant & Omega-3 content of your pets meal to help them live life to the fullest.

The key ingredients in Pawtality include:

- 🐾 Cold-pressed virgin Nigella sativa (Black Cumin) seed oil
- 🐾 Cold-pressed Cannabis sativa (Hemp) seed oil
- 🐾 Organic Medium Chain Triglyceride (MCT) coconut oil

When administered regularly with meals or orally, the ingredients in Pawtality work synergistically to provide many health benefits for your pet including:

- 🐾 Improves Skin & Coat Health (Gamma Linoleic Acid)
- 🐾 Promotes Keratin production
- 🐾 Allergy relief (Thymoquinone)
- 🐾 Prevents itching & scratching
- 🐾 Yeast prevention
- 🐾 Source of Omega 6 & Antioxidant

Pawtality can also be applied topically to aid in the healing of skin/coat issues including:

- 🐾 Alopecia
- 🐾 Eczema
- 🐾 Repel common pests

HAIR GROWTH AFTER 8 MONTHS OF USE.

## KEY INGREDIENTS IN PAWTALITY

Pawtality combines a blend of natural, cold-pressed oils high in nutrients that are beneficial for your pet including:

### OMEGA-3 FATTY ACIDS

Improve brain health, stabilizes mood, cardiovascular health, & manages inflammation when incorporated regularly into your pet's diet

### THYMOQUINONE

Potent antioxidant phytonutrient compound with analgesic, anti-inflammatory, & anti-aging properties which helps promote healthy cell function

### VITAMINS & MINERALS

High in Vitamins A, B1, B2, B3, B5, B9, Calcium, Iron, & Zinc

### GAMMA LINOLEIC ACID (GLA)

An essential fatty acid for optimal skin & coat health

#### DOSING GUIDE (AS A DAILY HEALTH SUPPLEMENT) ADMINISTER TWICE A DAY.

0-20LBS	20-50LBS	50-80LBS	80+LBS
1/4 dropper (0.25mL)	1/2 dropper (0.5mL)	3/4 dropper (0.75mL)	1 dropper (1.0mL)

As a topical treatment, apply 2-4 drops to the affected area and massage in until absorbed. Add more as needed.

## CUSTOMER TESTIMONIALS

### MY PUP LOVES IT!

"I purchased this to add some extra omega-3 to my dog's diet. She loves the flavour! We plan on using it for a while to add extra health to her coat and skin."

- Natalie B.

### A GREAT EXTRA BOOST!

"Our 13-year old golden doodle has been taking the Pawtality for a month now. We are very thankful for such a convenient way to provide him with extra Omega 3 and Thymoquinone for their anti-inflammatory and analgesic properties! This is what is greatly helping with his mobility as he experiences the effects of spondylosis."

- Nancy B.

### THE "MISSING LINK" FOR MY GIRL

"I absolutely love the product! I have had my Border Collie, Ellie, on a fairly intensive regimen for the last 8 months to rid her of yeast and heal her skin and coat. It has absolutely helped with her itching, itching has reduced and the dry patches are going away. It has taken months to put her through a total healing process (which included all raw, novel proteins, probiotics and yeast eliminating supplements etc). But I can absolutely say that when we added the Pawtality oil it was like the final thing her system needed to transform her coat into the beautiful, shiny red that it is now. We will use this product ongoing as part of her histamine regulating plan!"

- Melanie L.

PM Meal	1/4 dropper (0.25mL)	1/2 dropper (0.5mL)	1 dropper (1.0mL)

\*As needed based on severity of health issues and desired effects

## CUSTOMER TESTIMONIALS

### FULL SPECTRUM FOR ARTHRITIS

"I've got a very arthritic 13 year old Lab with major mobility issues (she's had 2 surgeries and has mild hip dysplasia). She seems to be coping with the pain much better. Was giving her another brand of hemp oil which didn't seem to be doing much. But with the stronger full spectrum Pawtanical PawDaily it seems to be making a world of difference. Thanks!"

-Leah H.

### AN ABSOLUTE LIFESAVER FOR KOKO

"This product has put his regular 5-6 week seizures on hold. Six months have gone by and no incidents. We can't be without a good supply of your product."

-Sheila I

### EXTREMELY HAPPY!

"Our dog is a 1yr old rescue. He is anxious, has a hard time eating a full meal, and training with him was difficult as his attention span is none. We tried the Pawdaily large and noticed within the first couple of days he was finally able to relax. He is able to finish a meal and can focus for us to do basic manner training. I would definitely recommend this to anyone with a dog that has anxiety. It has helped our dog be the best version of himself!"

-Jaclyn M
