

The K-9 Choice Plus product line is a complete species specific diet in a bag. Consisting of only our free range whole animal proteins, (including organ & bone) and our unique fruit & veggie mix we make simply the best quality food for your best friend. Guaranteed. We proudly raise, process and package every ingredient possible in our federally certified facility in Tofield, Alberta. From pasture to package, from our farm to your family. And that matters—in the quality of what we offer you and what you can offer your pet.

Beef Spleen

Compared with regular cuts of muscle meat, our Beef spleen is more densely packed with just about every nutrient possible.

Beef Spleen is also loaded with essential minerals your dog needs, it's like a natural multi-vitamin for your dog!

1.36 Kg (3 lb)

Unique flash frozen grass fed beef organs.

****Pancreas- excellent for replacing missing digestive and fat utilizing enzymes**

Fresh Frozen Pancreas

Beef pancreas is full of beneficial enzymes that aid in digestion and is a great supplement to your dog's diet. Feeding pancreas is one method by which to aid dogs with pancreatitis—a disorder which prevents the pancreas from producing enzymes essential for the digestion of food.

1 lb (454 g) bags, Portioned: 0.5" cubes
