DISINFECTANT COMPARISON

						
Disinfectant	Hypochlorous Acid (HOCl)	Alcohol	Bleach	Hydrogen Peroxide	Vinegar	Colloidal Silver
Effectiveness	99.9%	70-90%	99.99%	99.9%	~80%	70-90%
Time to Disinfect	1-3 mins	1 min	5-10 mins	1-10 mins	5-15 mins	5-10 mins
Not Toxic, Flammable, Explosive or Corrosive	✓	✗	✗	✗	✓	✓
Does Not Sting/Hurt	✓	✗	✗	✗	✗	✓
Gets Rid of Odour	✓	✗	✗	✓	✓	✗
Can be Fogged	✓	✗	✓	✓	✗	✓

HOCl is produced within white blood cells and is used to kill pathogens in our bodies. It is highly effective and eco-friendly. Use as multi-purpose disinfectant for wounds, body yeast, pre-injection, grooming salon, and at home.
