NOTES ON FLOWERS

All flowers should be shown in suitable containers and care should be taken not to crowd them.

Stems or Stalk: A plant structure carrying one or more flowers and or buds. It may be branched. (ie: sweet peas, petunias)

Spike: An upright stem carrying several flowers, usually with short pedicel such as snapdragons and gladiolus.

TIPS ON PREPARING EXHIBITS FOR THE JUNIOR SECTION

Be sure to read the prize list and show exactly what is called for.

Vegetables and Flowers: Be sure to exhibit number called for, ie: if the class is for 3 beets then only 3 beets on the tray. Otherwise the entry will be disqualified even though it is a better selection. Vegetables grown underground may be washed but not scrubbed, except for potatoes.

Sweet Corn: Select cobs that have straight rows or kernels and prepare a uniform exhibit. Make sure kernels are filled, especially at the ends. Carefully remove all husks.

Potatoes: Select tubers about 6 to 8 ounces in weight. Free from greening, disease, injury, mechanical damage. Correct shape or type for variety, uniform in size and as smooth as possible. Brushed clean, no skin damage in cleaning.

Round Beets: About 2 to 3 inches in diameter, free from sunburn and side roots. Dark in colour, round and uniform in size and shape. Tops trimmed to ¼" above crown, rubbed clean, not washed or scrubbed, root may be trimmed to 1" approximately.

Cylinder Beets: Long uniform, cylindrical roots are smooth and deep red. Tops trimmed to ¾" above crown, rubbed clean, not washed or scrubbed, root may be trimmed to 1" approximately.

Onions: Trim tops, ½ inch above bulb, well dried, firm, well matched. Only jagged and dirty outer scale should be removed, not peeled. The roots should be removed just below the bulb.

Cucumbers: About 8" long and 1 ¾" in diameter. Wiped clean, little or minimum light colour on underside.

Green Tomatoes: About 2 ½" in diameter, smooth & free from blemished. Calyx to be removed.

Ripe Tomatoes: About 3" in diameter, smooth, free from blemished and uniform in colour. Calyx to be removed.

Table Turnips: Select those that are smooth & without large side roots. 4" to 6" in diameter.

Squash: Hard and mature, wiped clean, little or minimum light colour on underside, soft round stem.
