

FEEL THE rebound DIFFERENCE

1

COMFORT LAYERS

REBOUND provides unrivaled softness that your feet will thank you for! Three comfort layers will ease the minds of parents when their little ones take spills when running on decks!

2

SLIP RESISTANT

REBOUND's Pool & Deck surfaces are extremely slip resistant. A much safer choice for pool stairs, pool decks and splash pads.

3

EASE OF INSTALLATION

REBOUND can be applied over your existing pool surface, saving the time & money spent removing old plaster or pebble! Less mess & less noise! Minimal tools needed for installation!

4

CHLORINE STABLE

REBOUND surfaces have been lab tested and approved as chlorine stable. REBOUND materials have been used in demanding commercial and public splash pad applications for years.

5

DURABLE

REBOUND's flexible but durable polymer composite layers can hold up to patio chairs, dogs, drops, spills and all of nature's harsh elements without sacrificing its beauty.

6

UV RESISTANT

Clinically tested in the hot summer sun of Arizona, Rebound is proven to be resistant to the sun's damaging UV rays.
