

# DENIED LIFE SAVING SURGERY

END MEDICAL DISCRIMINATION

# Dazelle

17 year old Dazelle Peters needed a double lung transplant, but Saint Vincent's Hospital in Sydney refused to put her on the transplant list. They said (in 2024) she must first have four Covid shots. After many months of fighting for her **right to choose**, Dazelle passed away. Please share her story. Where there is risk there **MUST BE CHOICE**. Stand up for bodily autonomy. Tomorrow it could be you.

A song explaining her story is out now on all major platforms.

Please listen, and share: DAZELLE

Update : SHINE ON DAZELLE
