How long does it take “the experts” to figure out a Crime Scene after a crime is committed compared to how long it took the Scene to form? Think reverse-engineering timeline.

If it took as long as the “cosmologically-scientific experts” say it took for the universe to form, then it stands to reason that it should take longer for Man to figure out how it happened. This translates to more than billions of years!

Agenda Style of the Globalists

What You Get the Establishment

AS1 **Mandated Content**

People are told what to believe and demanded to tow the party line, without any regard for consciousness; rote utilization, learning removes the need for thought; just recall stored info via indoctrination

AS2 **Magical Invite Rituals**

Using images and incantations of words and stories, the controlling dominators of the world massage you to remember what you otherwise would not know.

AS3 **Discouraged Thinking**

Think as we tell and do as we say. our agenda is purely whatever we play. You will be ridiculed if you don't conform. You will be hated if you challenge the status quorum.

Vs.

God's Real Estate

GRE **Open Vision Content**

1

People are encouraged to ask questions about the world we live in related to scripture, without the religious structures and demands that come with the "church of the norm".

GRE **Unmatched Insights**

2

We are free to ask, to contrast and compare, without denominational influences, and we don't recognize requirements to submit to any traditional doctrine...secular or religious.

GRE **Rethinking Prophecy**

3

We invite an open conversation concerning the landscape of what is written, for those still seeking to understand, recognizing we don't know it all...we plug-in. Everyone is welcome including haters (70X7). We love hugs and don't mind opposition.
