Tim Johnson

Kim, Austin and Wyatt Olson

Welcome to our 42nd annual sale. Ralph and Helen purchased their first Red Angus female in 1961. They began selling bulls through private treaty and at the local auction market in Timber Lake for many years before they had their first official cataloged sale 42 years ago. We have enjoyed producing registered Red Angus all our lives and have met many producers and have made some lifelong friends.

We are very proud of the fact that our genetics have played a role in commercial programs that are recognized for top-selling, replacement-quality females and steers that push the scales to the limit. Your success is what drives us to select and produce cattle that are exceeding industry average. The Red Angus breed just keeps growing in popularity and doesn't show any indication of slowing anytime soon. Heifers are out selling their steer mates and more and more breed associations are using red females for their crossbreeding selections.

With the advancement of technology there are numerous tools to help with herd bull selection. Feel free to visit us anytime and we can use our decades of experience to answer questions that will assist you in fine tuning your herd. Our philosophy hasn't changed in about raising cattle. "Staying consistent" and selecting for a balanced set of traits. We simply focus on females that are feminine, highly maternal, with outstanding feet and leg structure, with level udders. We strive to have these qualities along with cattle that are deep sided, long bodied and plenty of muscle wrapped up in a quiet and easy-to-handle package.

2019 was an interesting year to say the least. We were blessed with extraordinary moisture and found ourselves in the same predicament of many – having to wean around rain events. We did get our bulls weaned mid- to late-October. They weaned great and did exceptionally well this winter. We will have them carcass ultrasounded late February and will have Oahe Vet palpate and scrotal measure all the bulls. That information will be available through a supplement sheet sale day or on our website(www.pedersonredangus.com). We will not have them semen tested due to their young age but we do stand behind them when that time arrives prior to breeding. Once again, this year, the entire offering is parent verified.

We would like to thank our hired man, Tim Johnson, for his help through the past years. Tim is a valuable asset to our operation, and we couldn't get everything done without him. We would like to thank everyone for attending and considering using our genetics in your program. Bull selection is never an easy task and feel free to ask us any questions about the bulls. We will help you select bulls with the traits that you would like to improve and help you get to your end product goal.

*The Pederson Broken Heart Ranch crew
Gary and Sue, Chad, Lisa and Bricelyn*

Sale Information

DELIVERY:

It is our policy to assist in delivery to your ranch or to central locations on major highways within 300 miles. Bulls picked up within three or four days will receive a \$50 hauling refund. We will keep the bulls until April 1 at no charge but we will not be responsible for sickness or injury. However, we will keep you informed if anything turns up. We would like to start delivering bulls as soon as weather permits. We're giving a 5% discount on 5 or more bulls to the same ranch and a 10% discount for 10 bulls to the same ranch.

HEALTH:

All cattle are on a complete vaccination program and are BQA Certified. Oahe Veterinary Clinic, (605) 845-3634, is our primary veterinarian and will also be available on sale day. None of the cattle have had creep feed.

INSPECTION OF CATTLE:

Cattle will be available for inspection at any time prior to the sale.

LIABILITIES:

All persons who attend the sale do so at their own risk. The owners assume no liability, legal or otherwise, for any accidents which may occur.

BREEDING GUARANTEE:

We guarantee all bulls to be breeders although we recommend you have the bull's semen tested a couple of weeks before turn out time. If after two tests a bull is found to be a non-breeder, we will replace the bull or allow credit toward next year's sale. This guarantee is void if there is evidence of improper management in caring for the animal, or the bull's inability to breed is due to sickness or injury which was incurred after being sold. The bull shall be returned by the purchaser or other arrangements made with us. Scrotal measurements and ultra sound data on the bulls will be available on sale day. All bulls are born and raised on this ranch.

SEMEN INTEREST:

Broken Heart Ranch is retaining a 1/3 semen interest in all bulls and selling full possession, full salvage, plus 2/3 semen revenue. This means any semen sold on any of the bulls, Broken Heart will receive 1/3 the selling price per unit. We also reserve the right to collect semen on any of the bulls, for our own use. This semen will be collected at our expense and the buyer's convenience.

DVAuction

Broadcasting Real-Time Auctions

**View the Auction Live!
Bid Online... you're ringside
right at your desk!**

Buying online is as easy as 1, 2, 3...

1. Create an account at www.dvauction.com under the "register" tab
2. Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction-a DV representative will notify you once you have been approved
3. Tune in for the sale and make you purchases!

High speed internet is required for successful bidding-be sure to check the lag-time monitor in the top left corner to ensure real-time broadcasts.

Proxy Bidding-if you can't make time to watch the sale, register a proxy bid and let our system represent your bid while you're away. Look for the "proxy bid" tab on the auction listing, and fill in your maximum bids. We'll handle the rest!

Having troubles? During the auction, you can type a message to the operator at any time for assistance. Our full-time support team can also always be reached at (402) 474-5557.

Top Dollar Angus Feeder Program

Top Dollar Angus is a genetic-certification and marketing company focused exclusively on the top 25% of the industry in carcass and growth Angus and Red Angus-influenced feeder cattle. Top Dollar Angus is a program similar to other popular branded-beef programs, except that Top Dollar Angus does its "branding" in the feeder cattle and calf market.

Qualified herds must have two or more generations of Angus (Black or Red) genetics with growth and carcass traits objectively ranking in the top 25% of the breed based on documented historical sire use. DNA evaluation, conducted by Zoetis or GeneSeek, is another workable method to qualify. Once your cattle have met the necessary requirements, they will be marketed under the Top Dollar Angus brand and logo, and will be promoted aggressively to a large number of feed yards and buyers. In today's market, Top Dollar Angus cattle are seeing premiums ranging from \$30 to \$70 per head above the average market.

Why the premium? Cattle feeders know that Top Dollar Angus cattle perform better and have higher grid-based carcass rewards compared to other cattle. This puts more dollars per head into the cattle feeder's pocket, which can be passed back to the producer in the form of premiums paid above market price.

Top Dollar Angus helps take the guess work and surprises out of growing and feeding cattle. Feed yards are tired of unpredictable performance and wide-ranging profitability results from group to group on cattle they purchase. Cattle often look the same and have the same colored hides, but are very different genetically. That's why the genetic certification of high-end Angus and Red Angus feeder cattle is here! The industry must differentiate the best Angus and Red Angus genetics from average cattle, and that's what Top Dollar Angus will do for you!

If you have consistently invested in high-performance Angus or Red Angus genetics, Top Dollar Angus will make your cattle stand out from the pack and get you the premiums you deserve. No matter how you market your cattle, our goal is to create more demand and higher prices for your calves.
