

THE OBVIOUS ADVANTAGE®

# 20 clues to find what is **obvious about you.**

---

A short field guide by Christa Haberstock

Your Obvious Advantage leaves a trail. Follow what keeps happening.

# Strengths + Skills + Story

Your Obvious Advantage is the one-of-one pattern formed where your strengths, skills and story meet. It shapes how you contribute at your best.

Because it feels natural and automatic, the pattern can be hard to see.

**Your impact leaves fingerprints. Use these questions to dust for prints.**

**Look for what repeats.**

# What are you picky about?

What do you notice that  
other people miss?

# What do you automatically fix?

What do people always ask  
you for help with?

What feels ridiculously  
easy to you?

# What can you do unusually fast?

What are you unusually  
particular about?

What do you have strong  
opinions about?

What are you always  
making better?

What do people  
compliment you on that  
you shrug off?

What do you know without  
knowing how you know it?

What problems do you  
actually enjoy solving?

Where do people say, ‘How did you do that?’ Or ‘How did you know that?’

What have you been doing  
your whole life?

What got you in trouble  
when you were younger?

What frustrates you when  
other people don't see it?

What do you have a hard  
time explaining how to do?

What would you happily do  
even if nobody paid you?

What do you underestimate  
about yourself because you've  
always been able to do it?

What seems obvious to  
you?

THE OBVIOUS ADVANTAGE®

# Your Obvious Advantage leaves a trail.

Follow what keeps happening.
