Captain Hyperscaler and TrustedCISO Announce Partnership

Captain Hyperscaler and TrustedCISO are bringing their combined synergies to provide extensive value to organizations.

DETROIT – Captain Hyperscaler and TrustedCISO have agreed upon a partnership that focuses on risk and compliance education with readiness assessments and vCISO services.

“The services that TrustedCISO provides to prepare organizations for SOC2, NIST, and ISO audit readiness aligns perfectly with our Skill Up Like a Super Hero™ training sagas for building a risk aware organization,” CEO Dwayne Natwick said. “We’re excited to bring a combination of training and awareness to organizations that are building risk and governance policies and procedures.”

TrustedCISO provides services to prepare your organization for compliance within any industry and build cyber resilience. The TrustedCISO team bring 30+ years of experience in cybersecurity and compliance. In combination with Captain Hyperscaler’s 30+ years in IT and 10+ years of technical training and education experience, your organization has a solid support structure for building new processes and educating stakeholders.

“Captain Hyperscaler and TrustedCISO share a common goal to enable businesses with what they need to build cyber resilience through policies and education for a risk aware organization,” Dwayne Natwick said.

"I'm thrilled to announce that TrustedCISO has partnered with Captain Hyperscaler LLC, known for their highly accredited security training, to deliver highly effective customized security awareness training powered by TrustedCISO's expert virtual CISO consulting services. Together, we will provide comprehensive cyber resilience solutions to our customers," said Debra Baker, CEO of TrustedCISO, named in the top 100 women in cybersecurity by Cyber Crime Magazine.
