### **Captain Hyperscaler and GrayMatter GRC Ltd. Announce a Partnership to deliver service value and governance framework hero sagas**

*Captain Hyperscaler and GrayMatter GRC Ltd join forces to provide the best of service value, governance, and cyber resilience frameworks through ITIL, ISACA, and AKYLADE.*

**DETROIT** – Building a cyber resilient organization and a risk aware organizational culture is a challenge that many companies are facing. To accomplish this, organizations are embracing frameworks that provide tested and proven guidelines, practices, and models for successful governance. Captain Hyperscaler and GrayMatter GRC Ltd have the accreditation and expertise to write your hero saga and change your mindset.

“Captain Hyperscaler’s ability to provide consultative training to organizations within our portfolio of APMG accredited ISACA and AKYLADE courses help to take organizations to a new level of risk awareness and cyber resilience. Partnering with GrayMatter GRC allows us to add the full family of PeopleCert accredited ITIL training to round out a full governance framework Skill Up Like a Super Hero™ training saga,” CEO Dwayne Natwick said. “We’re excited to immediately this full training saga to our clients that provides them with a consultative level of training that is actionable to their organizations.”

Captain Hyperscaler’s training professionals are committed to providing a personalized experience to help you Skill Up Like a Super Hero™. The combination of AKYLADE Cyber Resilience and Risk Management origin stories with ITIL Foundations, and ISACA CISM, CRISC, CISA, and CGEIT hero sagas provide organizations with a strong, industry recognized, actionable frameworks.

“It’s exciting to be partnering with Dwayne Natwick and Captain Hyperscaler. The combined course offerings across ISACA, AKYLADE, and ITIL, along with Dwayne’s commitment to consultative training, means that whether you’re an IT Service provider who needs to understand information security risk and governance, or you’re an information security specialist who needs to work with the established practices of the broader IT and business organization, together we can help build a custom learning journey” said Vickie Gray, GrayMatter GRC Ltd owner. "Governance of enterprise IT has grown too complex to manage in the traditional silos of IT vs IS any more, and folks responsible for managing that complexity are looking for training that helps them deal with that reality. I’m looking forward to working with Captain Hyperscaler to build adaptive, practical and value-driven learning for our customers."

Stay tuned for more updates and training sagas as GrayMatter GRC and Captain Hyperscaler continue to empower business and technical professionals worldwide to use, educate, develop, architect, and protect organizational risk through governance, risk management, information system management, cyber resilience, and AI security.
