Companionship and Care

- ❖ Grooming and dressing guidance: dressing assistance with ordinary clothing and application of support stocking of the type that may be purchased with a physician's prescription. Grooming includes hair care such as shampooing (non-medicated / non-prescription shampoo), drying, combing and styling hair. Personal Care/Assistants may also assist client with shaving with an electric or safety razor.
- ❖ Medication reminding: Personal Care Assistants may assist the client with medication reminding when medications have been pre-selected by the client, a family member, a nurse, or a pharmacist and are stored in containers other than the prescription bottles, such as medication minders. Medication reminding includes: inquires as to whether medications were taken; verbal prompting to take medications; handing the appropriately marked medication minder container for the client if the client is physically unable to open the container.
- ❖ Housekeeping services: light cleaning including sweeping, mopping, dishwashing, making beds, taking out trash, wiping down hard surfaces and other general clean up.
- ❖ Personal laundry and linens: using washer and dryer and/or drop off and pick up from dry cleaners or laundry services.
- ❖ Cooking and meal preparation.
- ❖ Shopping for groceries, toiletries, and other household needs.
- ❖ Errands: Personal Care Assistants may run routine errands for clients or transport clients and assist them in completing their routine errands.
- ❖ Assistance in getting to and from appointments.
- ❖ Mail assistance and organization.
- ❖ Companionship and conversation: providing fellowship, care and protection.
