SUPERIOR FORMING SOLUTIONS LTD

Super-Form™ Formwork Systems

MAIN FEATURES

‘More than just a road form’

Its unique ability to remove pin braces and add push pull props or handrails allows it to be used as a slab edge formwork system for high rise slabs with ability to attach combisafe or other slab edge systems

Super-Form™ road form is unique, its patented joining system means no slides/bolts, just push 2 forms together and they interlock with no fixings

Unique fixing attachment system means you can have 1, 2 or 3 pin brace holders or add an adjustable push pull prop or even attach handrails

Available in 100mm / 150mm / 200mm / 250mm & 300mm heights plus ability to stack road forms together for additional heights

Comes in 1.2m / 2.4m & 3.0m lengths.

Straight & radius versions available in all heights and lengths

Design means they don't bend or buckle, they stay straight!

Our road forms come zinc coated as standard, so no maintenance no rust and unlike other systems they stay straight!

Accessories include internal corners and a plywood joint system that means you can make your pour the size you need.

The very latest innovation in formwork technology a multi use slab edge system that is completely unique

Comes with dowel holes as standard but also available without holes.

**Replaces timber, Reduces your Carbon foot print by 80%!
No timber waste, a fully recyclable product that has a long life and is sustainable.**

AVAILABLE TO RENT OR BUY THROUGHOUT THE UK & WORLDWIDE

**WE WE WONT BE BEATEN ON RENTAL PRICE!
WILL BEAT ANY RENTAL LIKE FOR LIKE QUOTE!**

SAFER ■ FASTER ■ SUSTAINABLE

SUPERIOR FORMING SOLUTIONS LTD

Super-Form™

Formwork Systems

SUPER-FORM™ THE UK'S NO.1 FOR FORMWORK HIRE & SALES

SUPER-FORM™ ROAD FORMS:

PRO'S:

- Patented Design and welded channel supports
Mean they don't twist or buckle.
- Zinc coated as standard so won't rust!
- Available in 1.2 / 2.4 & 3m Lengths, 100 to 300mm high
- Straight & Radius in all sizes.
- No Bolts or Slides, Patented easy join system.
- Add up to 3 Pin holders for heavy beam screeding.
- Can add handrails or Combi-Safe edge protection.
- Can have push pulls attached for high rise slab edge work with handrails and edge protection.
- Very long lifespan, so overall much cheaper than constantly replacing twisted, rusty stock.

CON'S:

- Slightly more expensive due to Zinc Coating.

OTHERS ROAD FORMS:

PRO'S:

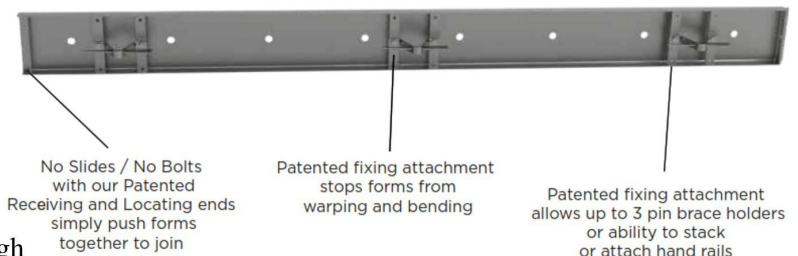

- Slightly cheaper initially.

CON'S:

- Will rust immediately if not already rusty.
- Will buckle & Twist easily.
- Low Life Span, measured in months.
- Single Pin point with no option for more.

Location: UK

Description: Comparison of Standard Vs Super-Form™ Road Forms

Super-Form Road Forms 6 months old

Everyone else's Road Forms at 6 weeks old
