Build a better tomorrow today.

Since 1956, Shaklee has been a wellness innovator. We bring wellness to every aspect of peoples' lives, from their physical health, to their homes, to the planet itself.

We strive for transparency in every product we create and go well beyond industry standards to test and ensure what we produce is as safe as it can be. And we were the first company in the world to be certified Climate Neutral.

But we do more than develop the best possible nutrition, personal care, clean beauty, and home products. We bring people together. People who share one simple goal: make healthy happen.

Our community knows no age and no limits. We call ourselves Generation Health, and we're here to lift each other up through friendship, mentoring, and healthy lifestyles, because health is the line that connects us all.
