

Any% Naked Team Route

Final Fantasy 2 Pixel Remastered

Organized By: [CaptotheDorks](#)

Source Material: [Ninnyz](#), [Ceaselessly](#)

Route: [Deln](#)

Run Timing: Timing starts on character confirmation. Splits are usually done on the start of the death animation of the boss. Final split is on the death animation of Emperor 2.

Party: Firion (Warrior), Maria (Monk), Guy (Monk), Leon (Warrior)

Risk: Autosave resets absolves all risk, Quicksaves can lessen long screen death resets.

Encounters: Early Encounters are needed, the majority of the rest of the run is fleeing.

Leveling Objectives:

- TBD

Step Count: Steps count will determine how many fights you get. Encounters can be skipped if you get through areas with the least amount of steps, so be wary of not taking a direct route.

Movement: Make sure you are running instead of walking for most of the game. In the Pixel Remastered, you can walk diagonally which can eliminate 100's of steps across the run.
