

YVONNE CHAMPAGNE

New Album:

WITCH MOON

WITCH MOON Yvonne Champagne is an all-female, two bass and drums art rock trio from the hi-desert. With Cat Celebrezze and Suze Kearns on bass and Denise Tanguay on drums, Yvonne Champagne features gang vocals and the heavy sound of Mojave Fuzz. Their upcoming third album, *Witch Moon*, is an invocation to the magick and mystery of the Mojave desert's night sky and all the weirdness thereunder. From the running rumble of *Casting Shadows*, to the heavy wonder of *Moonrise Over the Mountain*, to the dancecraft of the album's title track, *Witch Moon*, Yvonne Champagne delivers a phase-delay lunar odyssey in the key of heavy fuzz. Other releases include **Murder Winds** (2022), a de-tuned avant-gard fuzz rock song cycle dedicated to that most diabolic of desert weather and their debut release, **Yvonne Champagne** (2021), a foray into more traditional desert rock as a four piece that features snaky tenor sax solos, ethereal paeans to the desert night sky, and a carnivalesque tribute to Tanguay's grandmother, the band's namesake and hero.
