# GALACTIC GUARDIANS

Oh no! This little Alien got lost on an adventure in outer space, and he needs our help to get back to his home planet. Can you get him back safely with his spaceship?

# ALL SPACED OUT

## Across

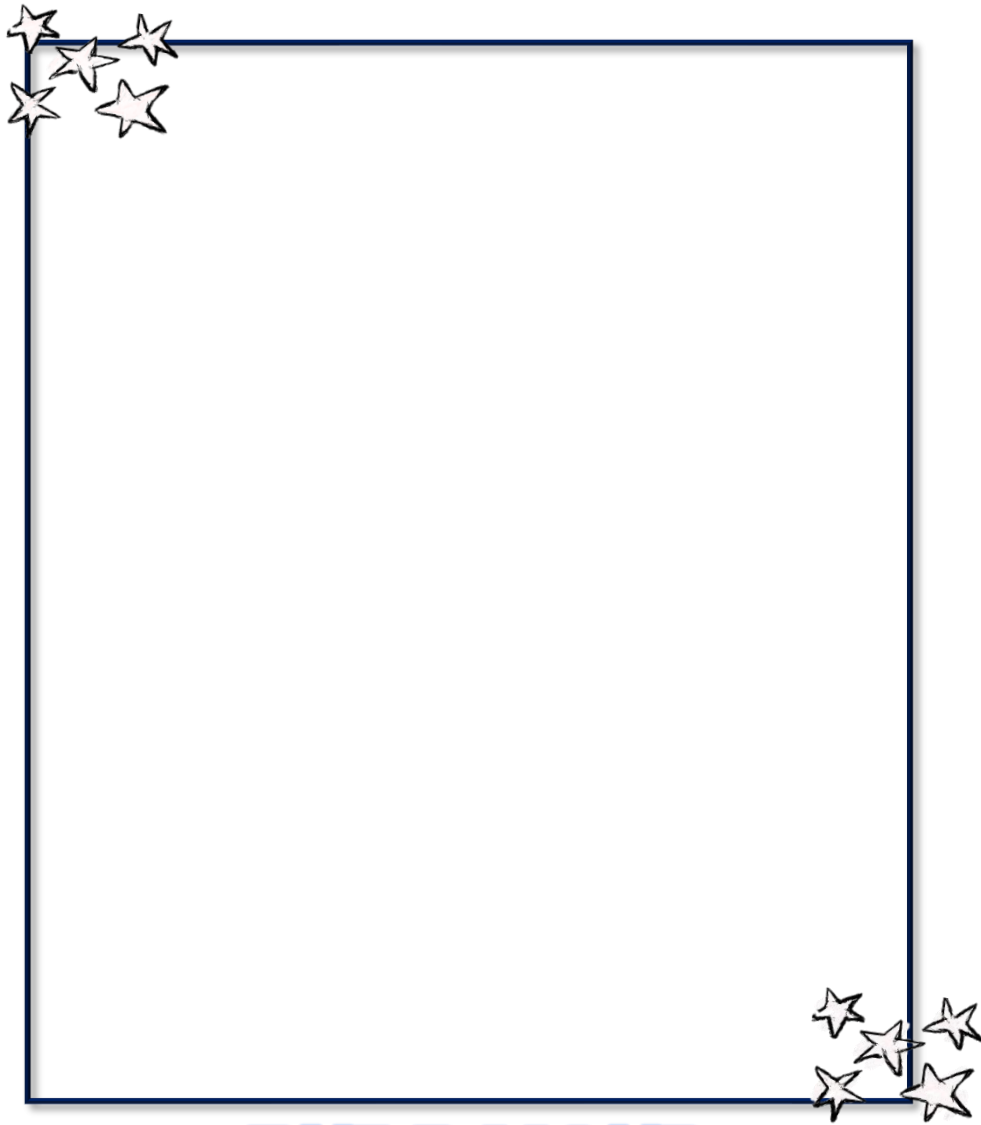

6. The \_\_\_\_\_ is like a protective layer that surrounds Earth.
7. \_\_\_\_\_ is considered a dwarf planet.
8. Aidan the dinosaur thinks \_\_\_\_\_ stands for National Alien Stopping Association.
9. Objects float in space because there is zero \_\_\_\_\_.
10. The moon controls the waves in the ocean, otherwise known as the \_\_\_\_\_.

## Down

1. There is a glowing \_\_\_\_\_ that powers Lenny the Alien's Spaceship.
2. There are \_\_\_\_\_ planets in our Solar System.
3. Shooster the dog thinks that he is a \_\_\_\_\_ and can communicate with aliens.
4. A person who travels into outer space is called an \_\_\_\_\_.
5. The USA placed an American Flag on the \_\_\_\_\_ in the year 1969.

## WORD BANK:

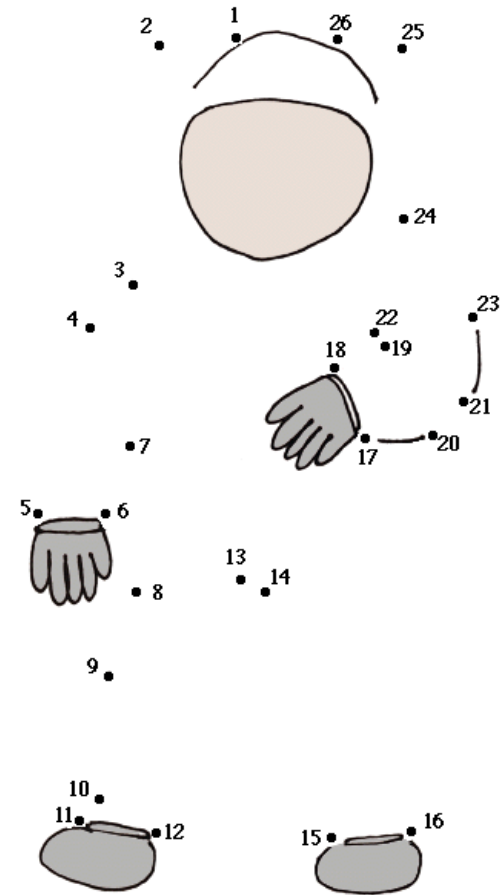

MOON	NINE
GRAVITY	CRYSTAL
NASA	ASTRONAUT
PLUTO	SATELLITE
TIDES	ATMOSPHERE

## **BUILD YOUR OWN SPACESHIP**

What would your spaceship look like if you were to go on an adventure in outer space? Draw your very own spaceship in the box above.

## **CRAZY CONSTELLATIONS**

The number of stars in space is endless. You know how clouds can make cool pictures? Well, stars are the same way! When stars form a picture in the sky, it is called a constellation. Can you connect the stars to see what this picture is?

# SCRAMBLED GALAXY

Unscramble the letters below to form the correct spelling of the word. Use the word bank below to help you with this mission:

COMET      TELESCOPE  
 GALAXY    MILKY WAY  
 GRAVITY    STAR  
 METEOR

# WHO AM I?

Cut out the planet names below and use the clues to complete the riddles.

Pluto here...What about me??

<p>I am farthest from the sun</p> 	<p>I have got the ocean</p> 	<p>I am the largest planet</p> 	<p>I have bigger, beautiful rings around me</p> 

<p>I am the hottest planet</p> 	<p>I rotate sideways</p> 	<p>I am the red planet</p> 	<p>I am the smallest planet</p> 

Neptune	Earth	Mecury	Jupiter
Uranus	Venus	Mars	Saturn

**FUN FACT:**  
 In 2005, astronomers found another planet larger than Pluto called Eris. Since the new planet was bigger, Pluto was reclassified as a dwarf planet instead.
