
September 2024

Let's do it together.

Food for thought-

Continuous education is important for self-employed individuals looking to stay relevant in their industries. Engaging in lifelong learning provides you with the opportunity to acquire new skills, enhance your performance, and expand your professional network. By investing in continuous education, self-employed workers can stay abreast of the latest trends and advancements in their fields of expertise, enabling you to remain competitive and adapt to the changing demands of the market. Ultimately, continuous education empowers you to boost your expertise, increase your marketability, and drive your businesses to greater success.

REMINDER:

September is a time to remember the lives lost to suicide and people who are living with depression.

Did you know?

RRSP vs. TFSA

- *Registered Retirement Savings Plans*- DEFERS taxes. Meaning, it lowers your current taxable income and you pay tax on it when it's withdrawn, plus pay tax on any interest earned.
- *Tax Free Savings Accounts*- Are tax free because the money has already been taxed. Therefore, it doesn't affect your taxable income or the interest earned.

(Thanks Kim! 😁)
