

# KING OF THE JUNGLE

THE RACE TO THE THRONE IS IN THE HANDS OF THE KINGMAKERS.

## HOW IT PLAYS

### 🎲 Roll & Choose

Roll the dice and choose one animal to move—but every decision matters.

### 🧠 Influence the Race

All players control all animals, but secretly support 3. Advance your own, or mislead your opponents. After your turn, remove the die from the game, and continue until 1 die is left.

### 🐾 Survive the Chase

At the end of each round:

- Hyenas move closer
- Any animal caught is eliminated, along with its colored die.
- Continue until 4 animals reach the throne, and the new King is crowned!
- Player with most points win.

## KING OF THE JUNGLE

*King of the Jungle is a wild jungle race where finishing first could cost you everything!*

The honorable Lion King has fallen, leaving the jungle without a ruler.

Now the animals race toward the vacant throne... but danger waits ahead. The first animal to reach the throne is eliminated by hidden hyenas lurking in ambush.

In King of the Jungle, players are powerful Kingmakers, influencing the movement of every animal in the race to shape the outcome, score points, and decide who becomes the next ruler of the jungle.

Roll the dice, move every animal, and outmaneuver the pack... but beware—the first to the throne is eliminated. With hyenas closing in and hidden points at stake, only the most cunning will crown the next ruler of the jungle.

## CORE MECHANIC

You don't control one animal...

You're secretly backing three animals to become the new King.

Move every animal. Bluff your opponents.

Survive the hyenas.

⚠️ **And whatever you do... don't finish first.**

### 👑 THE TWIST

The first animal to reach the throne is eliminated (ambushed by the hyenas!)

- 👑 King (2nd place) – 10 points
- 🛡️ Duke (3rd place) – 7 points
- 🌍 Ambassador (4th place) – 5 points
