Why Work Here?

"The FAA offers a rewarding, challenging career that allows you to contribute to the safest, most efficient airspace system in the world."

ENVIRONMENTAL PROTECTION SPECIALIST - The Federal Aviation Administration (FAA) Office of Airports is looking for individuals with environmental experience.

The FAA offers a rewarding and challenging career that gives you an opportunity to contribute to the safest, most efficient and environmentally responsible civil aviation system in the world. Working at the FAA offers a unique opportunity to experience a career where your impact not only reaches throughout the aviation industry, but around the world.

The Office of Airports of the FAA has a diverse workforce, career progression and empowers the staff to work independently to reach their full potential. This is an excellent opportunity to contribute to a great mission "the safest and most efficient civil aviation system in the world".

The Office of Airports serves as the principal FAA organization responsible for all airport program matters in airport design, construction, maintenance, environmental, fiscal, operations and safety. You will be performing specialized technical services related to environmental actions for airport planning and development projects. The incumbent is the principal contact with state and federal officials, airport sponsors, consultants and the public regarding issues at airports related to the National Environmental Policy Act (NEPA) and/or the Federal Aviation Regulations (FAR) Part 150 Noise Compatibility Program.

This position serves as an Environmental Protection Specialist (EPS) for the Office of Airports (ARP), Phoenix Airports District Office (PHX-ADO) in the Western Pacific Region. The PHX-ADO serves as the principal Federal Aviation Administration (FAA) organization responsible for all airport program matters in airport design, construction, environmental, fiscal, maintenance, operations and safety to public use airports in the states of Arizona and Nevada.

The current vacancy is located in Phoenix, Arizona. The position complies with FAA policy regarding telework with the selected candidate physically reporting to work in an office environment.

QUALIFICATION - U.S. Citizen, Education Degree (Bachelor of Science) in Environmental, Archeological and/or Cultural related field(s).

APPLICATION INSTRUCTIONS - 1) Cover letter describing your experience and interest in the position; 2) Resume; 3) Copy of education transcripts (non-official)

About Federal Aviation Administration:

The Office of Airports serves as the principal FAA organization responsible for all airport program matters in airport design, construction, maintenance, environmental, fiscal, development, operations and safety. You will be performing detailed, independent reviews, analysis and recommendations to FAA management for decisions on final CatEx, EA and EIS documents, Airport Noise Compatibility Studies prepared pursuant to 14 CFR Part 150 and Notice and Approval of Airport Noise and Access Restriction prepared pursuant to 14 CFR Part 161.

Company address: 3800 N Central Avenue, Suite 1025 Phoenix, AZ 85012
