NATIONWIDEBERG

PORTFOLIO

NATIONWIDE BERG Company

Located at 54 Philbrick Street, Roslindale, Massachusetts, USA, this international organization specializes in consulting, distribution, and the provision of technological, infrastructure, and commercial solutions.

With Angola as its primary focus, and sustaining active operations in the PALOP countries and the SADC region, the company establishes itself as a strategic partner in the development of intelligent, sustainable, and technologically integrated cities, enhancing the connection between African talent and global expertise.

A man in a blue shirt is holding a large yellow sign with the words "OUR MISSION" written in black, hand-drawn capital letters. He is standing in a large crowd of people, likely at a marathon or a public event, with a city street and buildings in the background. The image is overlaid with a semi-transparent white starburst graphic.

OUR
MISSION

Our mission is to deliver integrated and sustainable solutions that bridge technology, engineering, and urban development, fostering efficiency and social advancement in every project.

Importation of Electronic Products

With official partnerships with global brands including Apple, Cisco, and HP, NATIONWIDEBERG engages in the sale, distribution, and brokerage of high-performance equipment, providing a catalog that spans from the most affordable to the most exclusive products, all of which possess international recognition and certification.

The company offers comprehensive connectivity solutions, technological infrastructure, and technical support, ensuring innovation, reliability, and durability for businesses, public institutions, and large-scale projects within the African market.

- VMware
- Additional Software (e.g., Antivirus, Asset Management, Patching, Backup)

SOFTWARE AND PROCESSES

Asset identification:

- Automated identification
- Inventory Management for Information Technology and Operational Technology

Asset safeguarding:

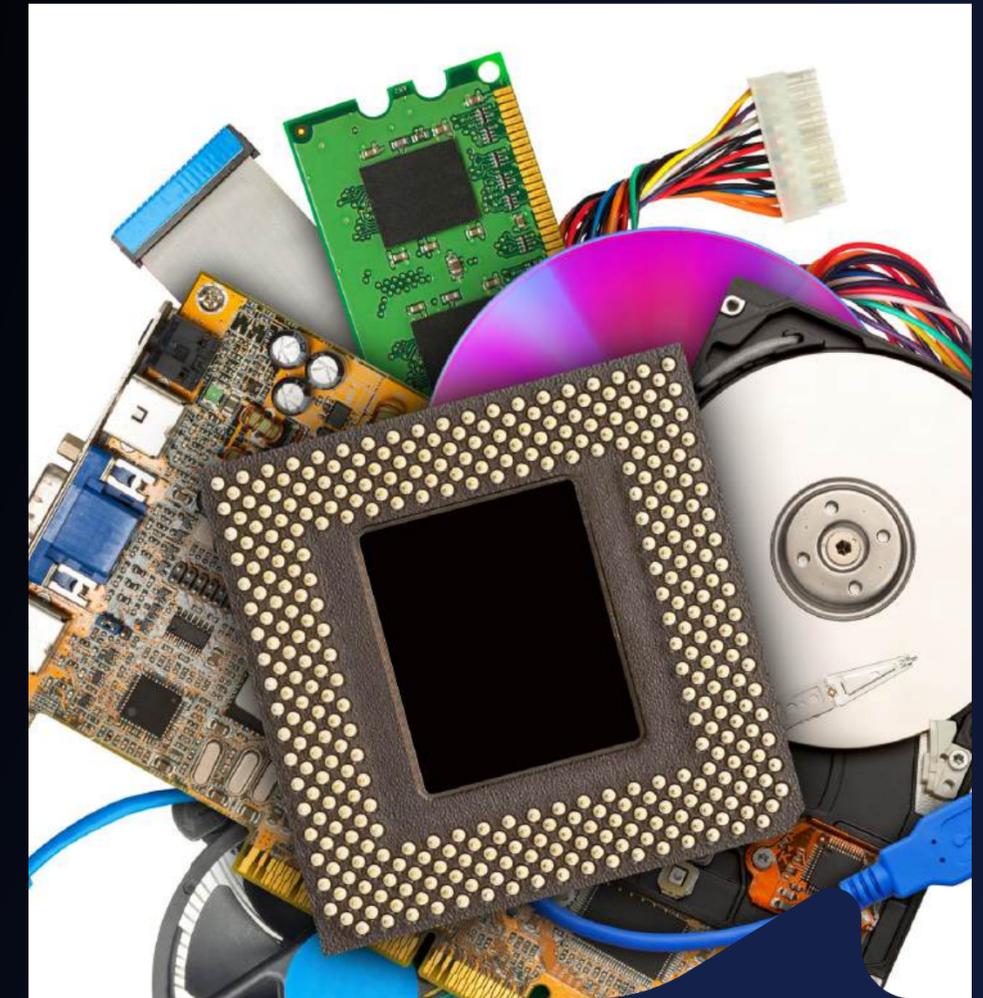

- IDS/IPS
- Next-generation firewalls
- Sophisticated antivirus and antimalware solutions
- Vulnerability evaluation and patch administration
- Defense against phishing and ransomware.
- Backup and Recovery Solutions

Detection:

- Alert and monitoring systems
- Anomaly and event verification
- Answer:
- Response planning, Communications, Analysis
- Mitigation and Enhancements

Recovery:

- Backup and Recovery Solutions

HARDWARE

- Desktops and Laptops
- Servers
- Storage (NAS and SAN, including NetApp solutions)

Fiber Optic Provision

Specializing in the strategic provision of fiber optic network components, we serve as a vital partner for telecommunications operators and major integrators across Africa.

Our portfolio encompasses all the high-quality materials and equipment essential for the development of FTTx (FTTH/FTTB) networks and metropolitan backbones:

- Fiber Optic Cables (comprising drop and backbone cables);
- Active and Passive Equipment (Optical Line Terminals, Optical Network Units, distribution enclosures, splitters);
- Network accessories for installation and termination.

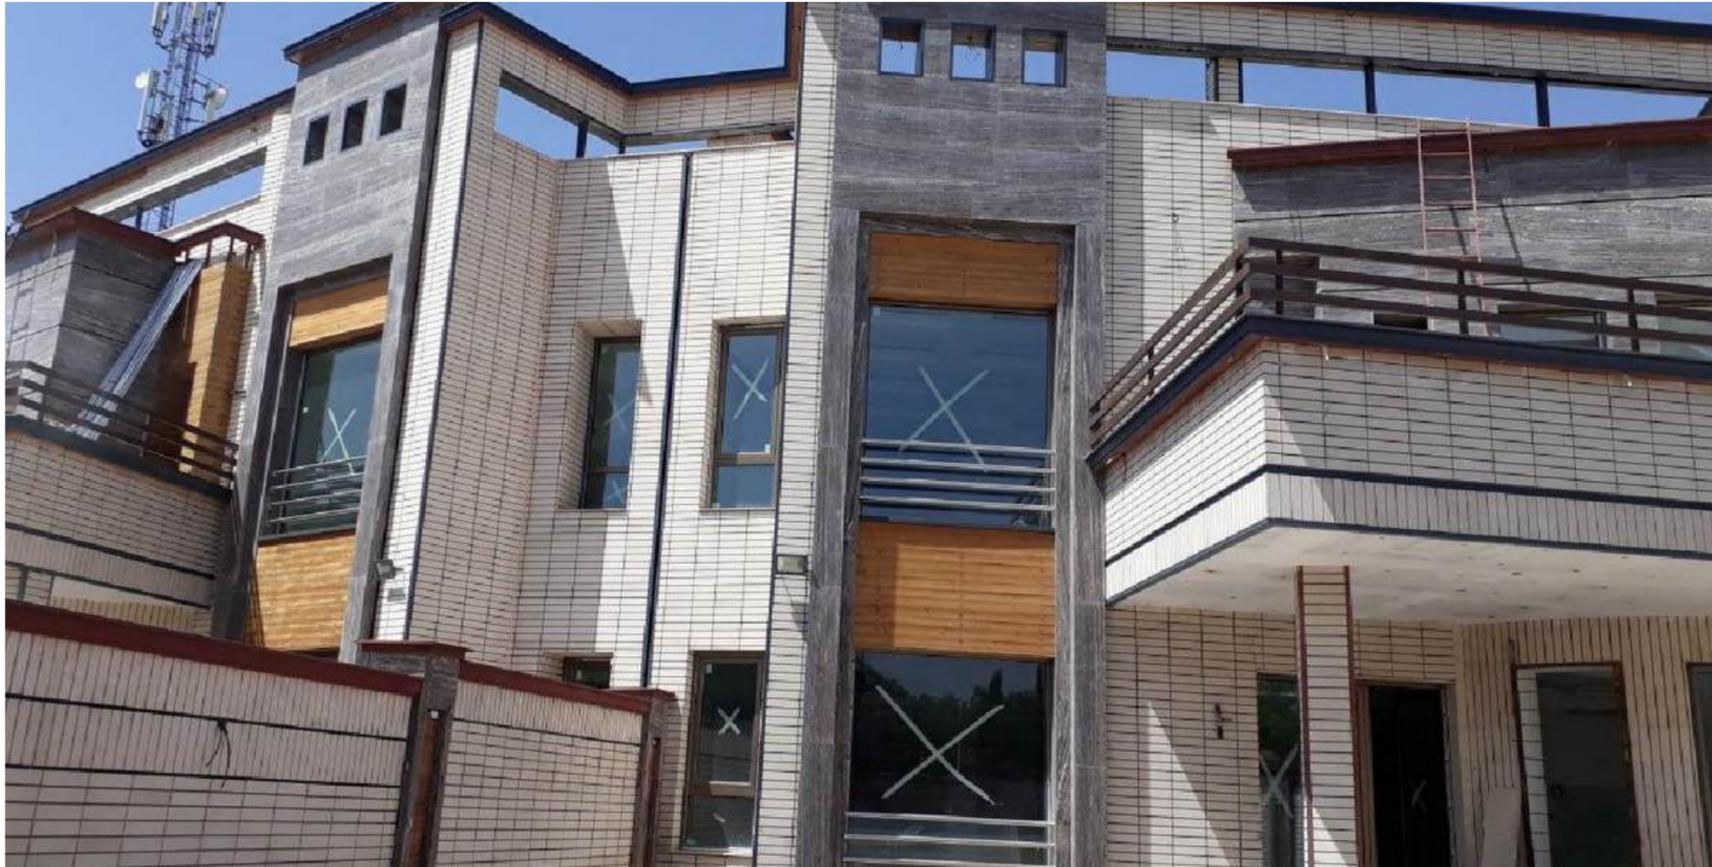

Through strategic alliances with global manufacturers, we ensure timely and optimized supply, guaranteeing that your network is constructed with resilient, scalable infrastructure ready for 5G and IoT. Our dedication to quality and adherence to international standards facilitates the growth of high-speed broadband throughout the continent.

Technical Consulting in Architecture and Engineering

NATIONWIDEBERG offers specialized engineering and architectural services, delivering comprehensive technical consulting for urban infrastructure projects, public sanitation, urban cadastral surveying, territorial planning, and contemporary lighting solutions.

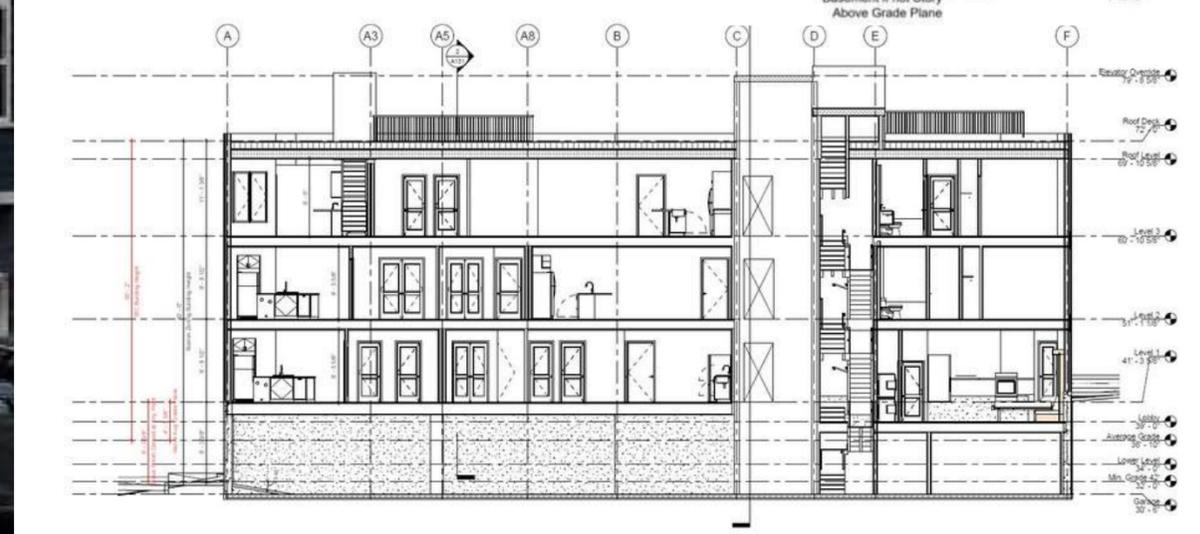

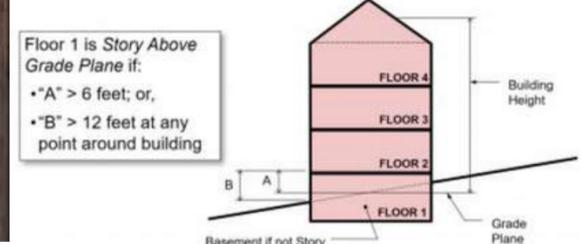

The company engages with multidisciplinary teams and esteemed international partners, delivering solutions that integrate innovation, sustainability, and operational efficiency. Throughout the years, it has established strategic alliances with globally recognized professionals and firms, executing projects in various countries, including the United States—particularly in Boston—and Iran, specifically in Keram, where it has played a pivotal role in the development of modern, functional, and technologically advanced urban environments.

Corporate Diplomacy

NATIONWIDEBERG provides a Corporate Diplomacy and International Representation service tailored for companies and institutions from Portuguese-speaking African nations aiming to forge institutional connections and strategic partnerships with the United States. We serve as a conduit between the private sector, government agencies, and regulatory authorities, facilitating enhanced relationships, dialogue, and the establishment of formal connections with US decision-makers.

Through our operational presence and certified contacts in the United States, we coordinate executive agendas, facilitate high-level meetings, navigate regulatory processes, and offer continuous support during negotiations. This service grants African organizations direct access to diplomatic, economic, and institutional channels, thereby enhancing their influence, broadening investment opportunities, and ensuring strategic integration into pertinent international markets.

Final Reflections

NATIONWIDEBERG values your attention and interest in our endeavors. Each partnership presents an opportunity to create value, generate impact, and collaboratively shape the future.

We encourage you to discover more about our projects, products, and collaboration opportunities via our website and official channels. We are prepared to advance to the next stage with you—because together, we turn vision into progress.
