

**Service Title:**

AI-Powered Design Sprint: Your Personalized First Cut

**Hi from No-oN,**

Dreaming of your perfect space but unsure where to begin?

We understand the excitement (and sometimes overwhelm) that comes with embarking on a new architectural project.

Get a head start on your dream project with our AI-driven design sprint. This one-week service delivers a personalized first-cut design proposal featuring unique, AI-generated renders, not recycled from Pinterest boards.

**For just ₹5999, you'll receive:**

- A personalized design concept tailored to your needs and preferences.
- Five unique views of your project, showcasing the layout and design direction.
- Fast turnaround - receive your proposal within one week.

**This service is perfect for clients who want to:**

- Visualize their project quickly and easily.
- Get a feel for the design direction before investing further.
- Explore creative possibilities without limitations.

Also, this cost is considering that the project is less than 10,000 sq. ft in India.

Take the guesswork out of your design journey. Order your AI-powered design Sprint today!

I am wishing great success with your project.

Happy designing.

**Sincerely,**
