Ezarri Spanish Glass Mosaic Tiles

Ezarri mosaics are world renowned for their high quality, durability and stunning range of hues and mixes. They are highly suitable for pools, spas, kitchens, bathrooms, murals, outdoor/indoor, commercial or domestic projects. Smooth rounded corners ensures safety in areas such as pools and spas. Ezarri have been producing mosaics for over 35 years and supplying over 82 countries. When next you have a tiling project that requires a superior glass mosaic choose Ezarri for beauty, quality and complete satisfaction.

Our Promise To You

Europe Imports promise to you is to only offer the utmost in customer service and to deliver to you a superior quality product. We will always utilize our extensive industry and product knowledge to ensure a perfect result for your project.

Our Guarantee

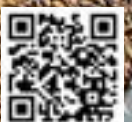

Ezarri is a trusted product around the world. Every order of Ezarri glass mosaic tiles comes with a "Guarantee of Quality & Authenticity". We want you to be totally confident in your purchase of our beautiful tiles. Every Guarantee is personally signed by the Director of Europe Imports.

ezarri

Welcome

to our Ezarri project gallery. In the following pages we present to you a selection of unique concepts and ideas for your distinct pool or décor project using our ezarri glass mosaic tiles.

Choosing Your Tile Colour

When choosing your Ezarri tile colour for your pool - first decide on the final desired water colour. The colour of the water is determined by many factors, not only the tile itself, but the water depth, location and surrounds of the pool.

We Can Help You

If you are not sure about choosing your tiles for your pool, our expert colour analysts team will be able to guide you as to the desired result you wish to achieve.

Design your own border!

Borders Range

Our classic Borders glass mosaic range offer a dramatic yet classical statement, providing your project with style and individuality with your own mix of colours.

BORDERS COME IN ANY COMBINATION OF COLOURS.
 Sizes: 25mm and 36mm

Mosaic Tiled Designs

Create an original custom works of art with the century old process of mosaic design. This process has been used for centuries and features in many historical projects. Let your imagination drive the design that will become a highpoint in your décor or pool project. A simple photo of your intended design is all you need!

Screen Printed Designs

You can transform your photos or designs into mosaic masterpieces. They can be any size and with as much colour or design complexity as you wish. Logos, photos of animals, names, fish, designs, faces, buildings, in fact anything that can be printed can be screen printed onto our glass mosaic tiles. Simply send us your idea or project and we will show you how to achieve your desired look & feel. For the final product to be perfect all we will need is a high resolution photo or design.

Sapa, Vietnam

Why fully tile your pool with ezarri mosaic tiles?

Unlike other surfaces that are designed on site by individual tradespeople, Ezarri mosaics are designed and tested for application in pools and tested with all major adhesive companies to guarantee a lifelong result.

Lifetime warranty - We provide a lifetime (25-year) Guarantee certificate for our Ezarri mosaic tiles with every order covering aesthetics and colour fade.

Eco-Friendly - Ezarri Mosaic tiles are made from 100% recycled glass and require less chemicals and time to keep cleaned and maintained. Less chemicals also means more beneficial to you and your families health.

Colours and effects - Ezarri offers a huge variety of effects and finishes that can create a vast variety of water colours that are only possible with an Ezarri fully tiled pool interior.

Ezarri mosaics offer smooth surfaces and rounded corners that won't scratch your skin or catch on your swimmers.

There are over 300 Ezarri Mosaic Tiles to choose from making the options endless. We have over 19 ranges with different finishes, sizes and colours including safe-step ranges with P4 rating. You can even create your own custom mix!

Special non-slip corner pieces and non-slip tile options are available creating a functionable and safe environment in the areas that matter.

You can reduce your chemical consumption and increase your maintenance equipment dramatically with an ezarri fully tiled pool due to the extremely low porosity of the surface making the surface super easy to clean.

Our JointPoint system allows 92% surface area on each individual tile and over 95% on the whole sheet for adhesive contact exceeding Australian standards and proving to be the most durable mosaic tile. Ezarri is the most trusted brand and preferred tile on the market today adding to your property value.

We have 6 colours on offer that are budget friendly.

Do it properly the first time and save yourself the regret, the most common complaint we hear from clients doing waterline tiles is that they wished they fully tiled from the start.

**ASK YOUR BUILDER FOR MORE INFORMATION
THEY ARE YOUR EXPERTS IN SWIMMING POOL FINISHES.**

ezarri

INDUSTRY
ANNOUNCEMENT
& CLARIFICATION

There is only one original ezarri mosaic tile

Europe Imports would like to clarify that EZARRI Spain, the manufacturers of Ezarri Glass Mosaic tiles, produce only Ezarri mosaics and have never collaborated with other glass manufacturers to share the mosaics produced at the Ezarri factory. Europe Imports would also like to clarify that the JointPoint® backing system produced by Ezarri, is exclusive technology that has been developed wholly and solely for the use with Ezarri glass mosaics and no other company has access to this JointPoint® technology.

FOUNDER *Paula Cowell-Yench* *Carl John Yench* MANAGING DIRECTOR

Place the grid over the backside of the correct sized mosaic tile to determine if the backing system meets the Australian standards for wet area application. The shearing system (the system that joins the mosaic tiles together) can only occupy 10 squares total in the grid leaving 90 squares free, this is equal to 90% available adhesion area as a minimum requirement to comply with AS 3958.1-2007.

Use the Adhesive Coverage Calculator (ACC) & avoid the ACCC!

'ADHESIVE COVERAGE CALCULATOR - ACC'

AS 3958.1-2007 Ceramic mosaic tiles
Installation of ceramic mosaic tiles Pt 5.6.4.2 Coverage
Minimum adhesive coverage for wet areas **90%**
Minimum adhesive for swimming pools **90%**

Call **1300 EUROPE** for your own ACC

" Complying with Industry Standards "

Do you have our Adhesive Coverage Calculator to ensure the tiles you choose meet the Australian standards?

------------------	-----------------------------	----------------------------

Ezarri Safe JointPoint® system

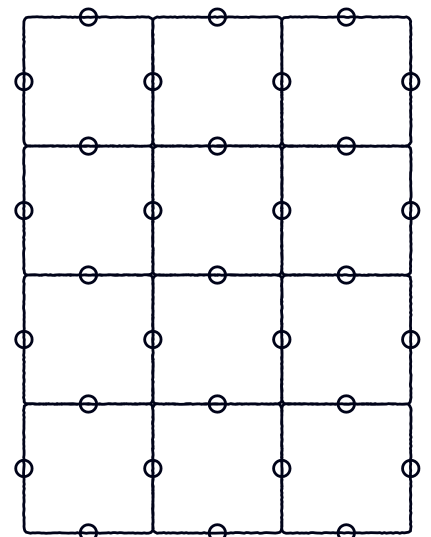

"It's not (only) the technology. It's defining the exact point."

This system leaves 92% of the mosaic surface free for applying the adhesive, which means much greater durability.

Its unique composition adapts to any curve or shape, ensuring maximum flexibility and strength. Working around obstacles is straightforward with the simple, easy-to-cut system.

Its flexibility and adaptability make it extremely easy to install, saving up to 25% of installation time compared to paper-based systems.

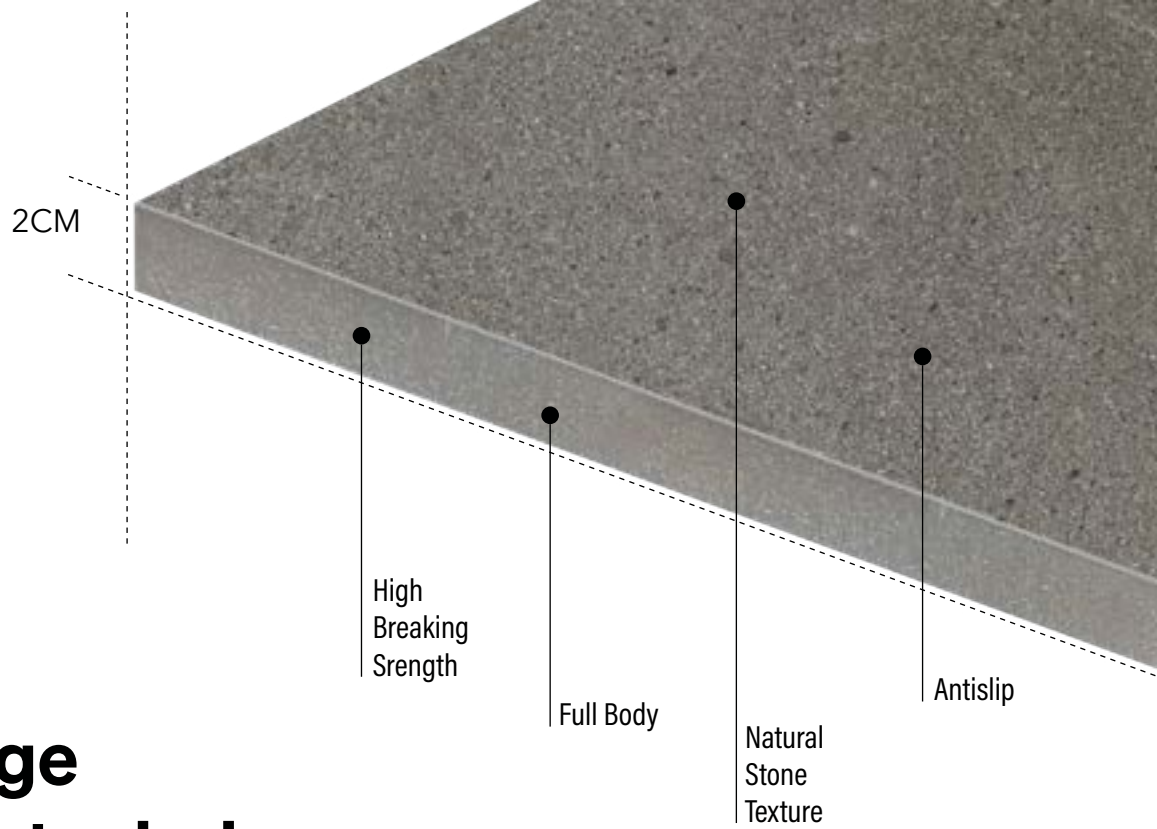

The JointPoint materials is designed to be Inert which means that the material is unaffected by moisture, chemicals, heat and cool making it perfectly suited for swimming pool application.

TURKO SERIES

porcelain by 

Cutting edge production technique

Very low water absorption (<0.1% so no expansion or contraction)

Turko Series ^{NEW}

Europe Imports has gone to great lengths immortalising this rare Turkish limestone into a stunning NEW original porcelain design called 'Turko'. This series offers grey & beige tones (referred to as 'Greige' in the design sector) with detailed veins/structure and natural movement inherent to the natural stone itself.
