

MAGNETRACE

Undermount Sink Cut Out Line Tracing Tool

SAY GOODBYE TO PAPER TEMPLATES!

Innovative, new and unique solution for precise and effortless undermount sink cutouts. Engineered with a simple but very effective magnetic technology, Magnetrace ensures perfect alignment and accuracy every time. Simplify your installation process and achieve professional results with ease. Discover the innovation and efficiency of Magnetrace – where precision meets simplicity!

Solving Common Undermount Sink Installation Challenges

Manual Inaccuracies and Uneven Cutouts:

Manual tracing often leads to inaccuracies and uneven cutouts, resulting in a poor fit.

Magnetrace ensures perfect alignment and precise tracing with its innovative magnetic connection, providing a flawless fit every time.

Time-Consuming Measurements and Human Error:

Measuring and marking can be time-consuming and prone to human error.

Magnetrace simplifies the process with a straightforward setup and operation, significantly reducing installation time and minimizing errors.

Inconsistent Results:

Manual methods can lead to inconsistent results across different installations.

Magnetrace offers consistent, repeatable results with its reliable magnetic system, ensuring uniform quality in all your installations.

Labor-Intensive Process:

The manual process of aligning, marking, and double-checking measurements can be labor-intensive.

Magnetrace speeds up the process by providing a quick and accurate tracing method, saving valuable time for installers.

Complex Measurements for Novices:

Complex measurements and alignment can be difficult, especially for less experienced installers.

Magnetrace is designed for ease of use, with clear instructions and intuitive features that make it accessible for both novice and experienced installers.

Conclusion:

Magnetrace revolutionizes undermount sink installation by addressing the key challenges faced by installers. Its precision, ease of use, consistency, time efficiency, user-friendly design, and enhanced visibility make it an indispensable tool for achieving professional-grade results effortlessly.

Say goodbye to the frustrations of manual tracing and embrace the innovative solution that Magnetrace offers.

Warnings:

1. Keep away from pacemakers.
2. This is not a toy. Keep out of reach of children to avoid injuries.
3. Magnetrace contains strong magnets; use it only for its intended purpose.
4. Magnetic fields may interfere with electronic devices; keep this in mind.

Liability Disclaimer: Magnetrace Ltd. is not liable for any damage or injury caused by misuse of the Magnetrace tool. Users are responsible for ensuring they follow all safety instructions and use the tool as intended.
