Lodging

- You are welcome to stay at Fall River Village- as this is where the wedding party will be staying. However, we listed a few other options for lodging on the home page of our website.
- The other lodging options listed on the homepage are also in Estes Park and within minutes from the wedding venue.
- To book, please contact **Madi @ 970.577.4022** or via email at madiV@stanleyhotel.com. Let her know which room/rooms you are interested in and she will handle booking needs and confirmations. Use the resort map link above to pick the location of your room by unit numbers. (Skyview venue is where the ceremony/reception will be held)

Transportation & Logistics

- Each of the lodging options listed on the website are located approximately 75 miles (1.5 hour drive) Northwest of Denver International Airport.
- Link to the shuttle information - - <https://www.estesparkshuttle.com/DIA-airport-shuttle>
- On wedding day, complimentary shuttling for all lodging locations will be provided to bring guests to/from the wedding starting from 3pm-11pm. **please note if you lodge outside of Estes Park, shuttling will NOT be available- you will be responsible for your own transportation**
- Shuttles are available for bigger groups to travel to/from airport with scheduled appointments only charged per person. The Town of Estes Park also operates five free, seasonal shuttle routes allowing you to get around town either from your lodging, or by parking at one of the large (free) hubs in Estes. Please visit <https://www.visitestepark.com/plan/getting-around/free-shuttle-buses/> to get more information about shuttling and trolleys. **if you're staying at Fall River Village, we are the red route on shuttle map**

Other

- There is a Grocery Store located 1 mile from Fall River Resort. 451 E. Wonderview Ave, Estes Park, CO 80517 - - https://local.safeway.com/safeway/co/estes-park/451-e-wonderview-ave.html?utm_source=G&utm_medium=Maps&utm_campaign=G+Places
- The average temperature in Estes Park in June for a typical day range from a high of 75°F (24°C) to a low of 44°F (6°C).
- Before your trip to Colorado, and while you are there, drinking plenty of water is the number one way to help your body adjust easily to the higher altitude. The low humidity in Colorado keeps the air dry, like the desert, so you need about twice as much water here as you would drink at home. Visit this website to learn more about preparing for altitude changes <https://www.visitestepark.com/blog/post/how-to-prepare-for-an-adventure-at-altitude/>
