FOAMING COIL CLEANER™

A Convenient Aerosol to Keep Coils Clean and Operating Efficiently

Foaming Coil CLEANER™ is an aerosol formulated to simplify the task of maintaining efficient operation of evaporator coils on window and rooftop air conditioner units.

FEATURES/BENEFITS:

Clinging Foam	Ensures complete coverage and extended contact time.
Excellent Cleaning	Quickly penetrates soils on coil surfaces to loosen and flush away with condensation.
Simplifies Cleaning	Convenient aerosol package greatly reduces the effort required to keep coils clean and operating efficiently.
Multi-Directional Valve	Allows product to spray right-side-up or upside-down, making application easier.
Reduces Cooling Costs	Clean coils promote more efficient operation of the unit and lower operating costs.

APPLICATIONS:

Cleans coils on roof tops and window-unit air-conditioners in apartments, office buildings. Particularly useful in Airport Terminal Services, Nursing Homes & Hospitals, Recreational & Sports Clubs, Department Stores, Operators of Apartment Buildings, Schools & Educational Services, Hotels & Motels, Plumbing and Heating & Air Conditioning

SPECIFICATIONS:

Physical Form	Liquid, Aerosol
